GULFTAINER'S JOURNEY FROM LOCAL TO GLOBAL

What We Do - WWD

International Port Management

Terminal Management

Logistics Cities

Container sales and repair services

Inland Transport

Inland Container Depot

GT GLOBAL FOOTPRINT

OPTIMISING SAFETY IN PORTS

Vision

Safely, sustainably and continuously improve Gulfairer's portfolio of Container Terminals / Ports value proposition to the benefit of all stakeholders. To be the standard setter for customer service and experience, to operate the most efficient and profitable terminals and for Gulfairer to be the Ports & Intermodal operator of choice within the markets and geographical locations operated in.

Strategy

Overview:

Operations PEX:

- Benchmarking of best practice across GT's terminals portfolio
- Develop implementation plans group wide based on benchmarking findings
- Implement Operations Financial Dashboards:
 - Develop Fiscal Awareness & Responsibility
- Implement Operations functional modelling:
 - Complement commercial teams when sealing new deals with accurate ops costings

Engineering:

- Benchmarking of best practice across GT's terminals portfolio
- Optimization of the asset fleet across the group – mitigate cost
- Asset and Civils condition surveys – establishing prevailing life cycles along with incorporating theoretical life studies
- Trend Analysis (completed in UAE) for in-line running costs against forecasted throughputs

QHSE:

- Benchmarking of best practice across GT's terminals portfolio
- Develop and document standard operating procedures across GT's Portfolio
- Implement and attain Integrated Management System Certification across GT's portfolio
- Standardized Accident/Incident/LTIFR reporting – Dedicated Functional Safety Champions – Safety/First Aid/Fire Warden Days across GT's Portfolio in-line with global initiatives

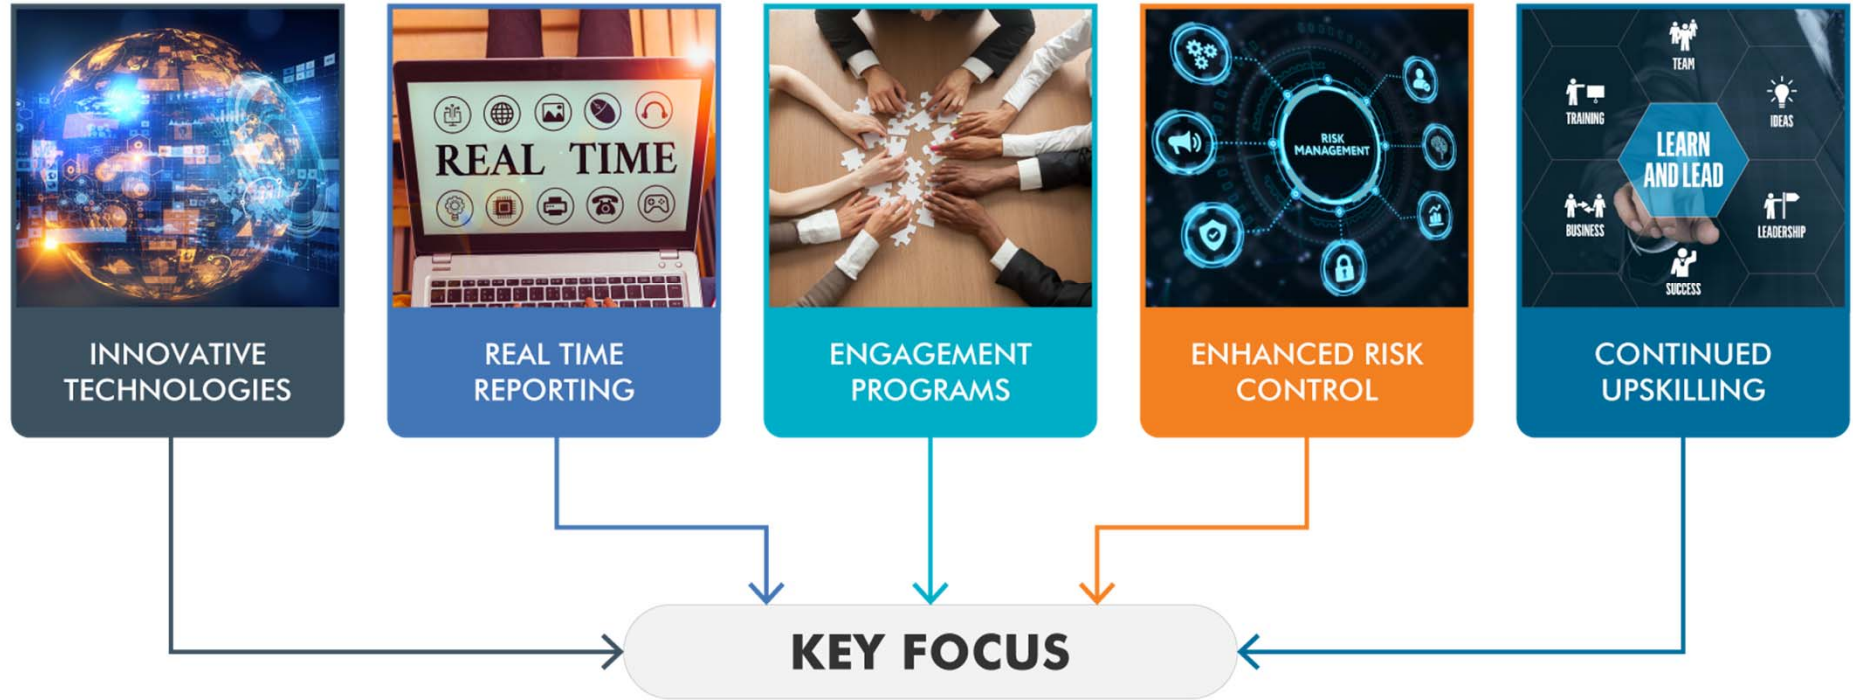

Group & BU:

- Collaborative approach fostered by GT HO Operations Support with all Group and BU functions

OPTIMISING SAFETY IN PORTS
