Other regular lines under study

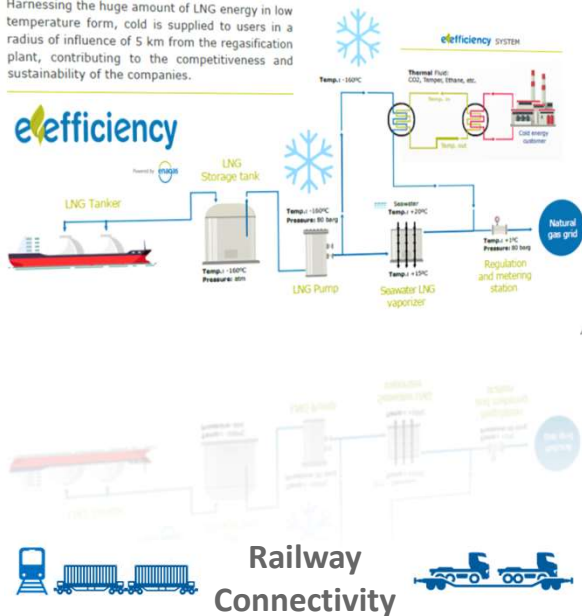

Commercial Focus in Container & Ro-Ro Cargo

Reuse of the inherent cool in the LNG process to cold stores for chilled and frozen goods

Cold Logistics Hub

Harnessing the huge amount of LNG energy in low temperature form, cold is supplied to users in a radius of influence of 5 km from the regasification plant, contributing to the competitiveness and sustainability of the companies.

Direct Access to
the B.C.P. and the
dockside
