ANETIC MESH
NETWORKS

The Leading Network Technology for
Connected Port Mobility & Automation

- 1. Scalable, fully meshed network
intelligently self-organizes in real time
- 2. Automatically multi-frequency reconfiguring
ensures reliability in the face of interference
& signal changes
- 3. The only network to enable 5G/6G
and 4G/LTE network evolution required for
automation systems

IT'S MOVING,
