831-2066

Growth in 2016

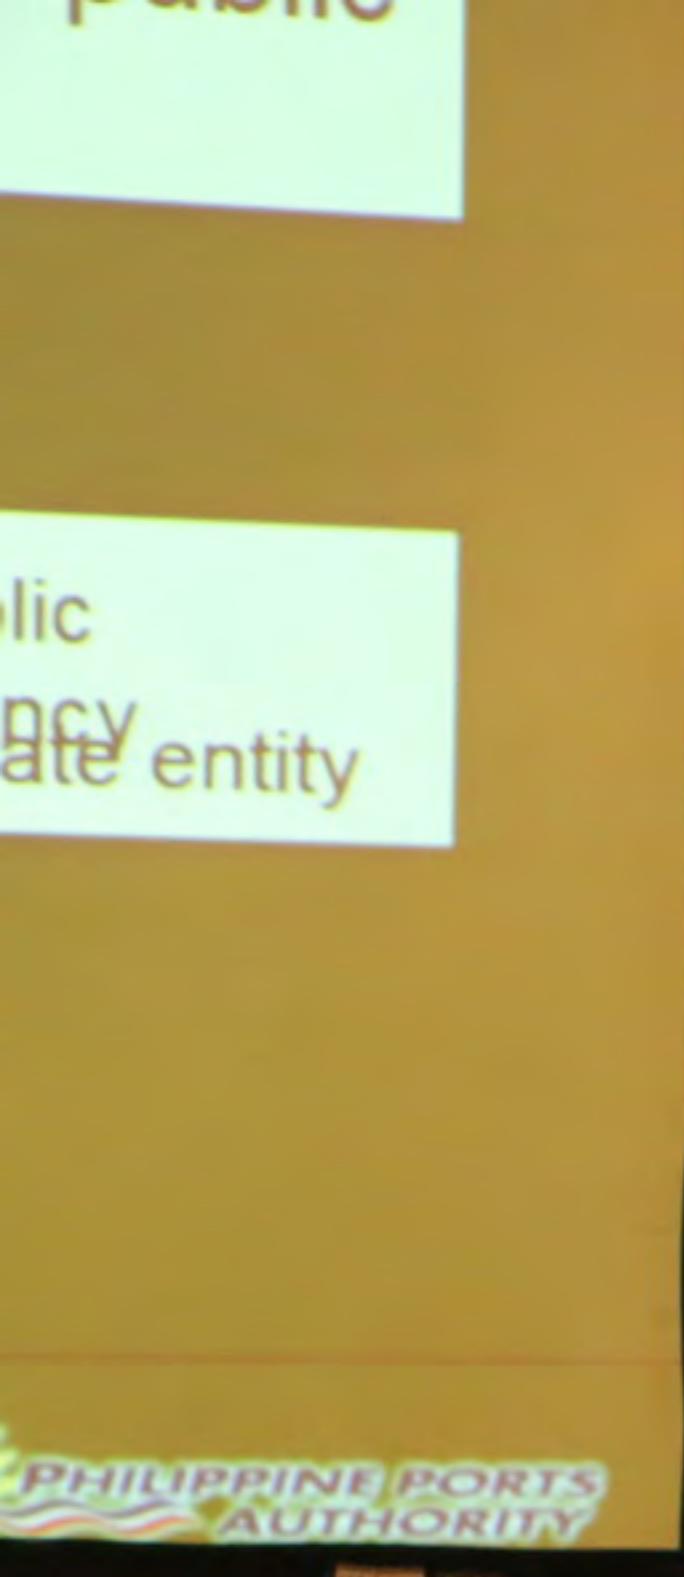

performance of 10.1% in the second half of 2016 – when the health care sector became the primary driver, driving the rise of 10.1% and lifting the economy and regulatory agencies direct impact given more

reason for the Department of Finance (DOF) to aggressively push for its proposed Comprehensive Tax Reform Program to give the government more opportunities to raise funds for its intended infrastructure spending programs.

During his speech, Mr. Tiwala said, "The Philippines is well positioned to grow between 6.5 percent to 7.5 percent in

Year to Year."
