How ports are tackling congestion and productivity

Javier Landa
Managing Director of Port Services

[Image of a presentation slide]
Comment une NGO comme WISTA peut créer des opportunités d'affaires en Méditerranée ?
A Gateway terminal has a large amount of external trucks working in the terminals’ stacking area.

Due to safety, it’s more difficult to Fully Automate these type of terminals.

However, the more automation is performed, the more we can Fully Automate the terminal due to a decreased no. of external trucks.
PERFECT LOGISTICS

Comparison of discharge concepts

- Single pipe (discharge)
- Single pipe (discharge)
- Single pipe (discharge)
- Single pipe (discharge)
Port of Barcelona

Barcelona: New terminals, new strategies
