Two men in suits are engaged in conversation at the booth. One man is gesturing with his hands while speaking. They are both wearing name tags.

A woman in a white blazer is standing behind a white table, looking towards the camera. She is holding a dark-colored folder or portfolio.

A woman in a red and gold patterned dress is standing to the right of the booth, looking towards the camera.

Who We Are

The Port of Mombasa is one of the major port facilities in East Africa. It is located on the coast of Kenya, approximately 15 km from the city of Mombasa. The port is owned by the Kenya Ports Authority (KPA) and is operated by the Kenya Ports Development Corporation (KPDC). The port is one of the busiest in Africa, handling over 10 million tonnes of cargo annually.

Kenya is a member of the African Union and is part of the East African Community (EAC). The port is also connected to the rest of Africa via land routes and maritime shipping. The port is a major hub for trade between East Africa and the rest of the world, particularly China and India.
