A LEGACY OF INDUSTRY LEADERSHIP

Introduction - A Legacy of Industry Leadership

Since its establishment in 2001, Transport Events has grown into one of the most respected organisers of international exhibitions and conferences in the ports, shipping, and logistics sectors. What began as a vision to connect emerging markets with global expertise have evolved into a powerful platform that drives collaboration, investment and innovation across continents.

As the company celebrates its **25 years milestone in 2026**, it stands as a testament to consistency, resilience, and industry relevance. Over the years, Transport Events has not only delivered world-class events but has also contributed to shaping the dialogue around port development, trade facilitation, and supply chain transformation in some of the world's fastest growing regions.

From Africa to Asia, Europe to the Middle East, the company's footprint reflects a deep understanding of regional dynamics and a commitment to supporting sustainable economic growth through strategic industry engagement.

History of Transport Events

Founded in 2001, Transport Events began with a strong focus on the emerging markets in Africa, Asia, and Europe, recognising the growing importance of these regions in global trade and maritime logistics.

From its early years, we positioned ourselves as a specialised organiser of B2B conferences and exhibitions for the ports, shipping, and logistics sectors. Its strategy was to work closely with port authorities, governments, and industry stakeholders, ensuring that each event addressed real infrastructure, investment, and operational challenges in the host region.

OUR JOURNEY - FROM VISION TO GLOBAL PRESENCE

The journey of Transport Events began with a clear mission: To create a dedicated platform where public and private sector stakeholders could come together to discuss real challenges and unlock real opportunities in transport and logistics.

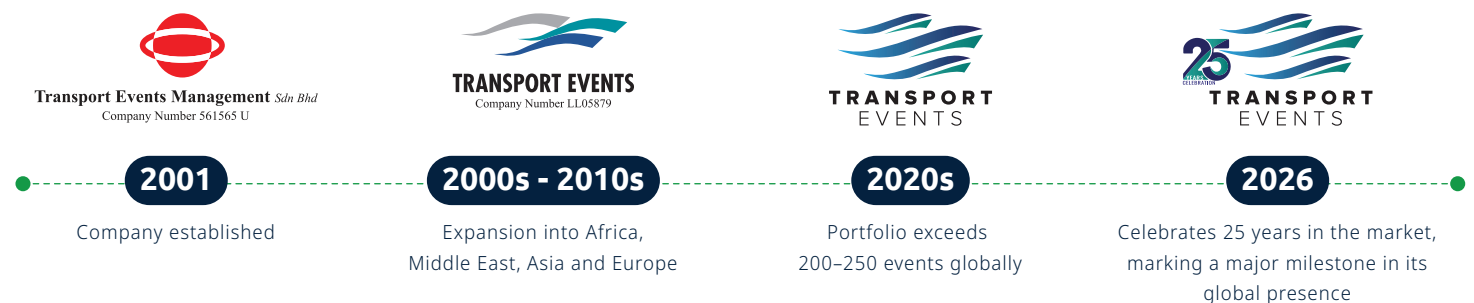

In its early years, the company focused on underrepresented markets—regions where infrastructure development and trade expansion were gaining momentum but lacked global visibility. By partnering with port authorities, government agencies, and industry leaders, Transport Events successfully positioned its events as catalysts for investment and knowledge exchange.

Each event is carefully curated to reflect the needs of the host country, ensuring relevance and impact. This localisation strategy has been key to the company's sustained success and strong industry reputation.

Over time, the company expanded its portfolio significantly:

- More than **250 international events** delivered
- Presence in over **85 countries**
- Thousands of **senior-level participants** engaged

Company Milestones

GLOBAL IMPACT - SUPPORTING TRADE AND DEVELOPMENT

The impact of Transport Events extends far beyond the events themselves. By facilitating dialogue between stakeholders, the company plays a crucial role in supporting:

Port modernisation and infrastructure development

Regional trade integration

Digital transformation in logistics

Sustainable and resilient supply chains

In emerging markets, where access to global expertise is essential, We acts as a bridge connecting local opportunities with international capabilities. This has led to numerous successful collaborations, investments, and long-term partnerships across the industry

Our company's events also contribute to national economic agendas by attracting international attention and positioning host countries as key players in global trade networks.

CREATING PLATFORMS THAT MATTER

What We Do - Creating Platforms That Matter

At its core, Transport Events specialises in organising high-level B2B exhibitions and conferences tailored to the ports and logistics industry.

These events serve as more than just networking platforms, they are strategic environments where:

Government present infrastructure plans and policies

Port authorities showcase expansion projects

Industry leaders explore partnerships and investments

Solution providers introduce cutting-edge technologies

Our company's signature approach lies in its ability to bring together the right audience. Delegates typically include decision-makers such as port directors, CEOs, policymakers, logistics providers, and international investors.

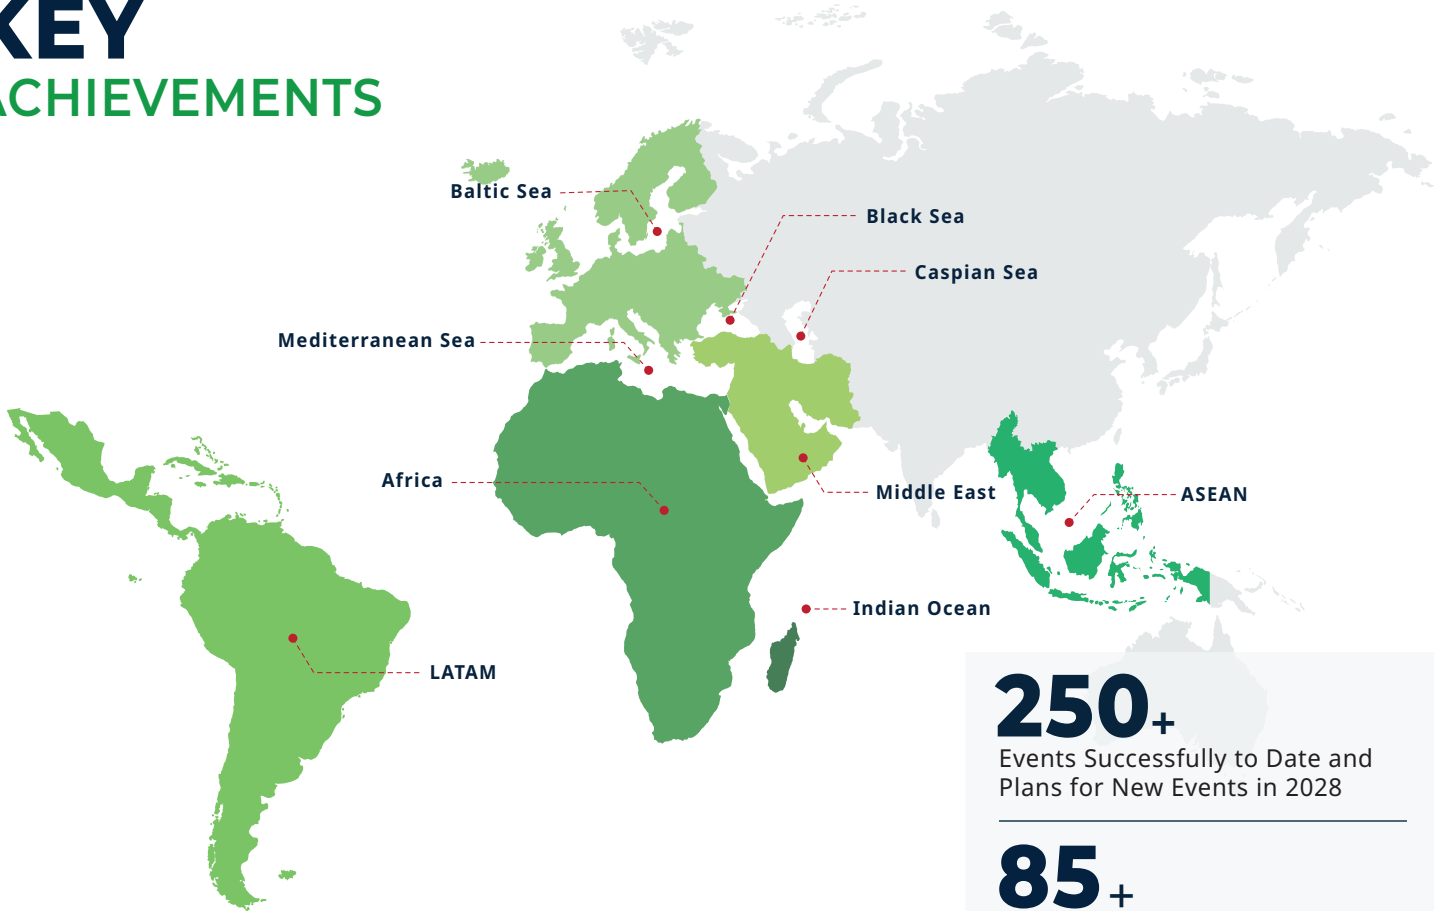

We align event content with real industry needs, so every conference delivers actionable insights and tangible business opportunities.

FROM FACE-TO-FACE TO WEBINAR

ONE MISSION - Connecting People. Sharing Knowledge

When the COVID-19 pandemic brought international travel and face-to-face events to a standstill, Transport Events faced one of the greatest challenges in its history. Rather than allowing the global ports, shipping, transport and logistics community to become disconnected, we transformed our traditional conferences and exhibitions into a dynamic webinar platform.

Through digital innovation, we continued to unite industry leaders, government authorities, port operators, shipping lines and logistics professionals from around the world ensuring that knowledge sharing, collaboration and business dialogue never stopped. What began as response to an unprecedented crisis became a powerful global platform connecting professionals across continents without borders.
