

Same Port, New Level - LHM

Versatile All-Rounder in Port Handling

LIEBHERR

Same Port, New Level - LHM Presentation Outline

1. Applications
2. Applied Modularity
3. Made in Germany

LIEBHERR

Same Port, New Level - LHM

One Machine – Many Possibilities

Container Handling

- From Coaster ships up to Ultra Large Container Vessels (ULCV)
- Vessels with widths of up to 22 rows of containers
- Manual, semi or fully automatic telescopic spreaders
- Single or twin lift and bulk containers can be handled

Same Port, New Level - LHM

One Machine – Many Possibilities

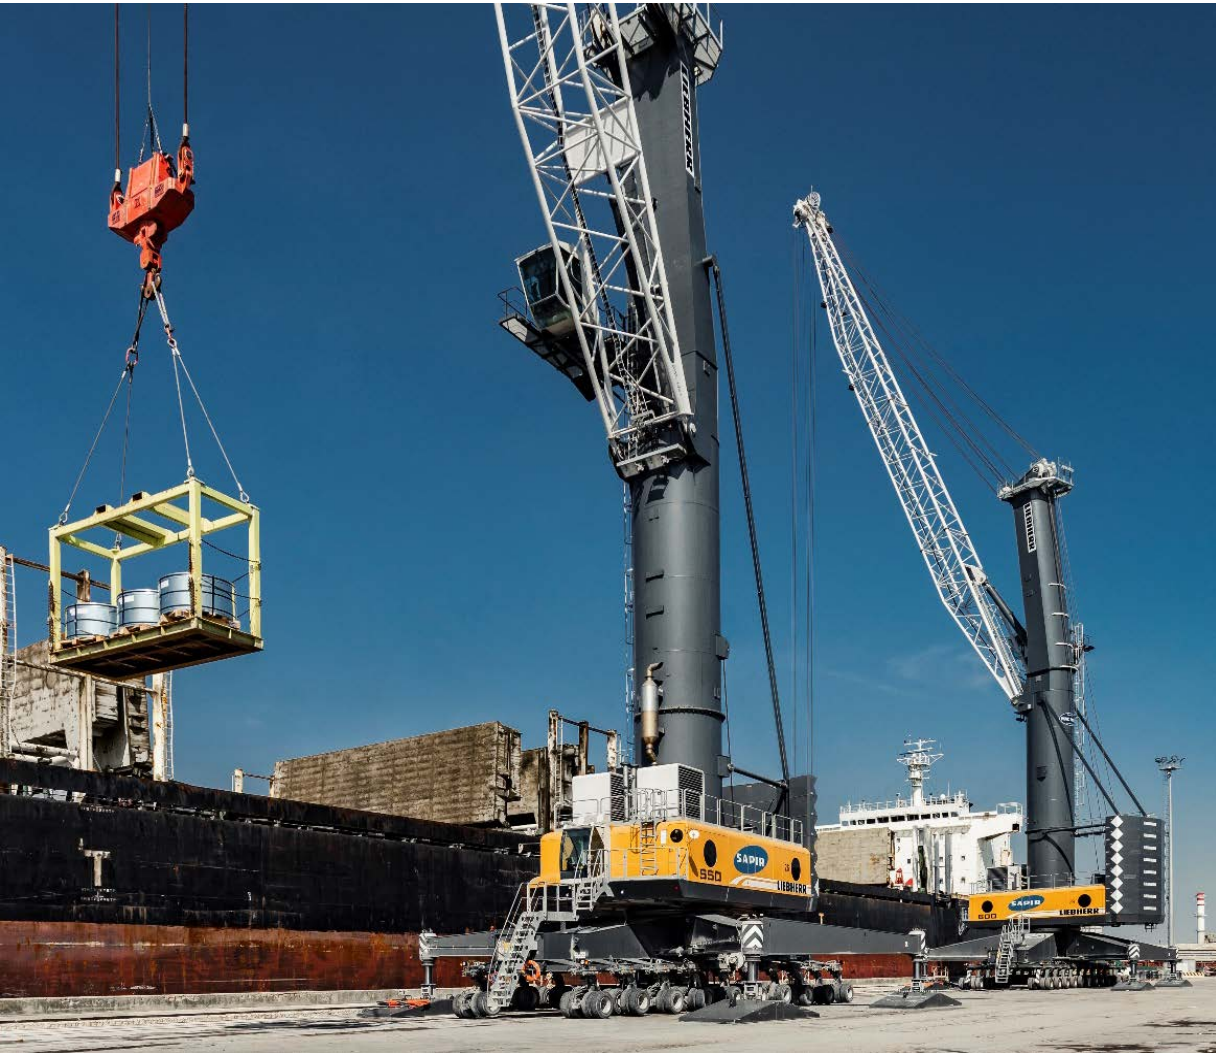

Bulk Handling

- Max material handling rate of up to 2,300 tonnes per hour
- Using various types of grabs
- Suitable for inland ports up to large sea ports
- Hydrostatic drive concept & closed hydraulic circuits guarantees immediate system reaction times for rapid and safe working cycles

LIEBHERR

Same Port, New Level - LHM

One Machine – Many Possibilities

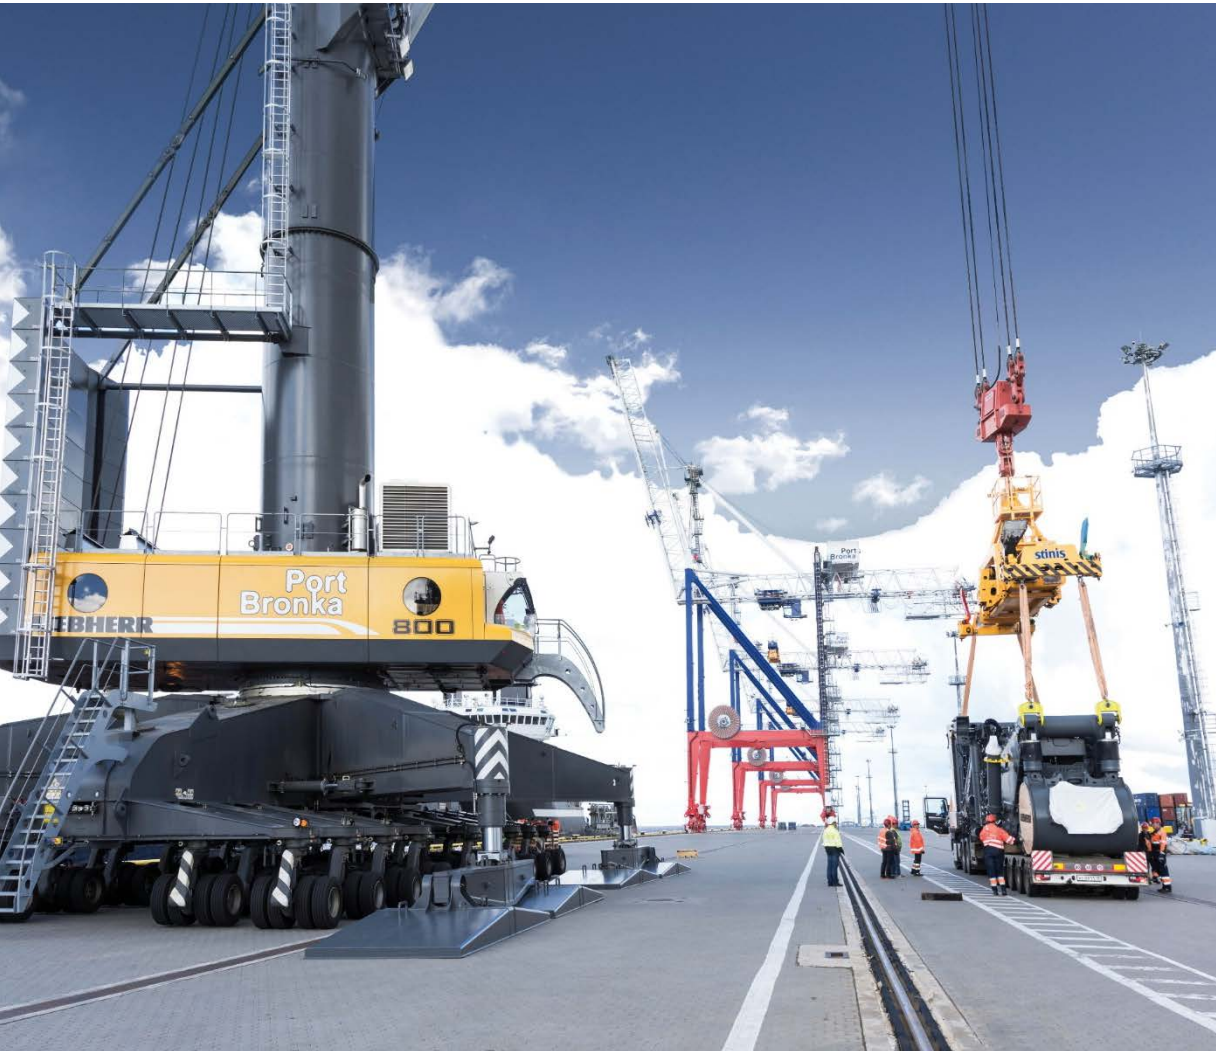

General Cargo

- Lifting attachments can be quickly and easily exchanged
- Litronic®, Liebherr's own crane control system, automatically recognizes and pre-selects the fitting load curve
- Ensuring unique versatility and continuity

LIEBHERR

Same Port, New Level - LHM

One Machine – Many Possibilities

Heavy Lift

- Liebherr's flagship model LHM 800
- Maximum load capacity 308 tonnes at 16 metres
- In tandem operation with a second LHM 800 the maximum lifting capacity is 616 tonnes.

LIEBHERR

Same Port, New Level - LHM Applied Modularity

LHM – Liebherr Harbour Mobile

LPS – Liebherr Portal Slewing

LFS – Liebherr Fixed Slewing

LIEBHERR

Same Port, New Level - LHM Applied Modularity

LBS – Liebherr Barge Slewing

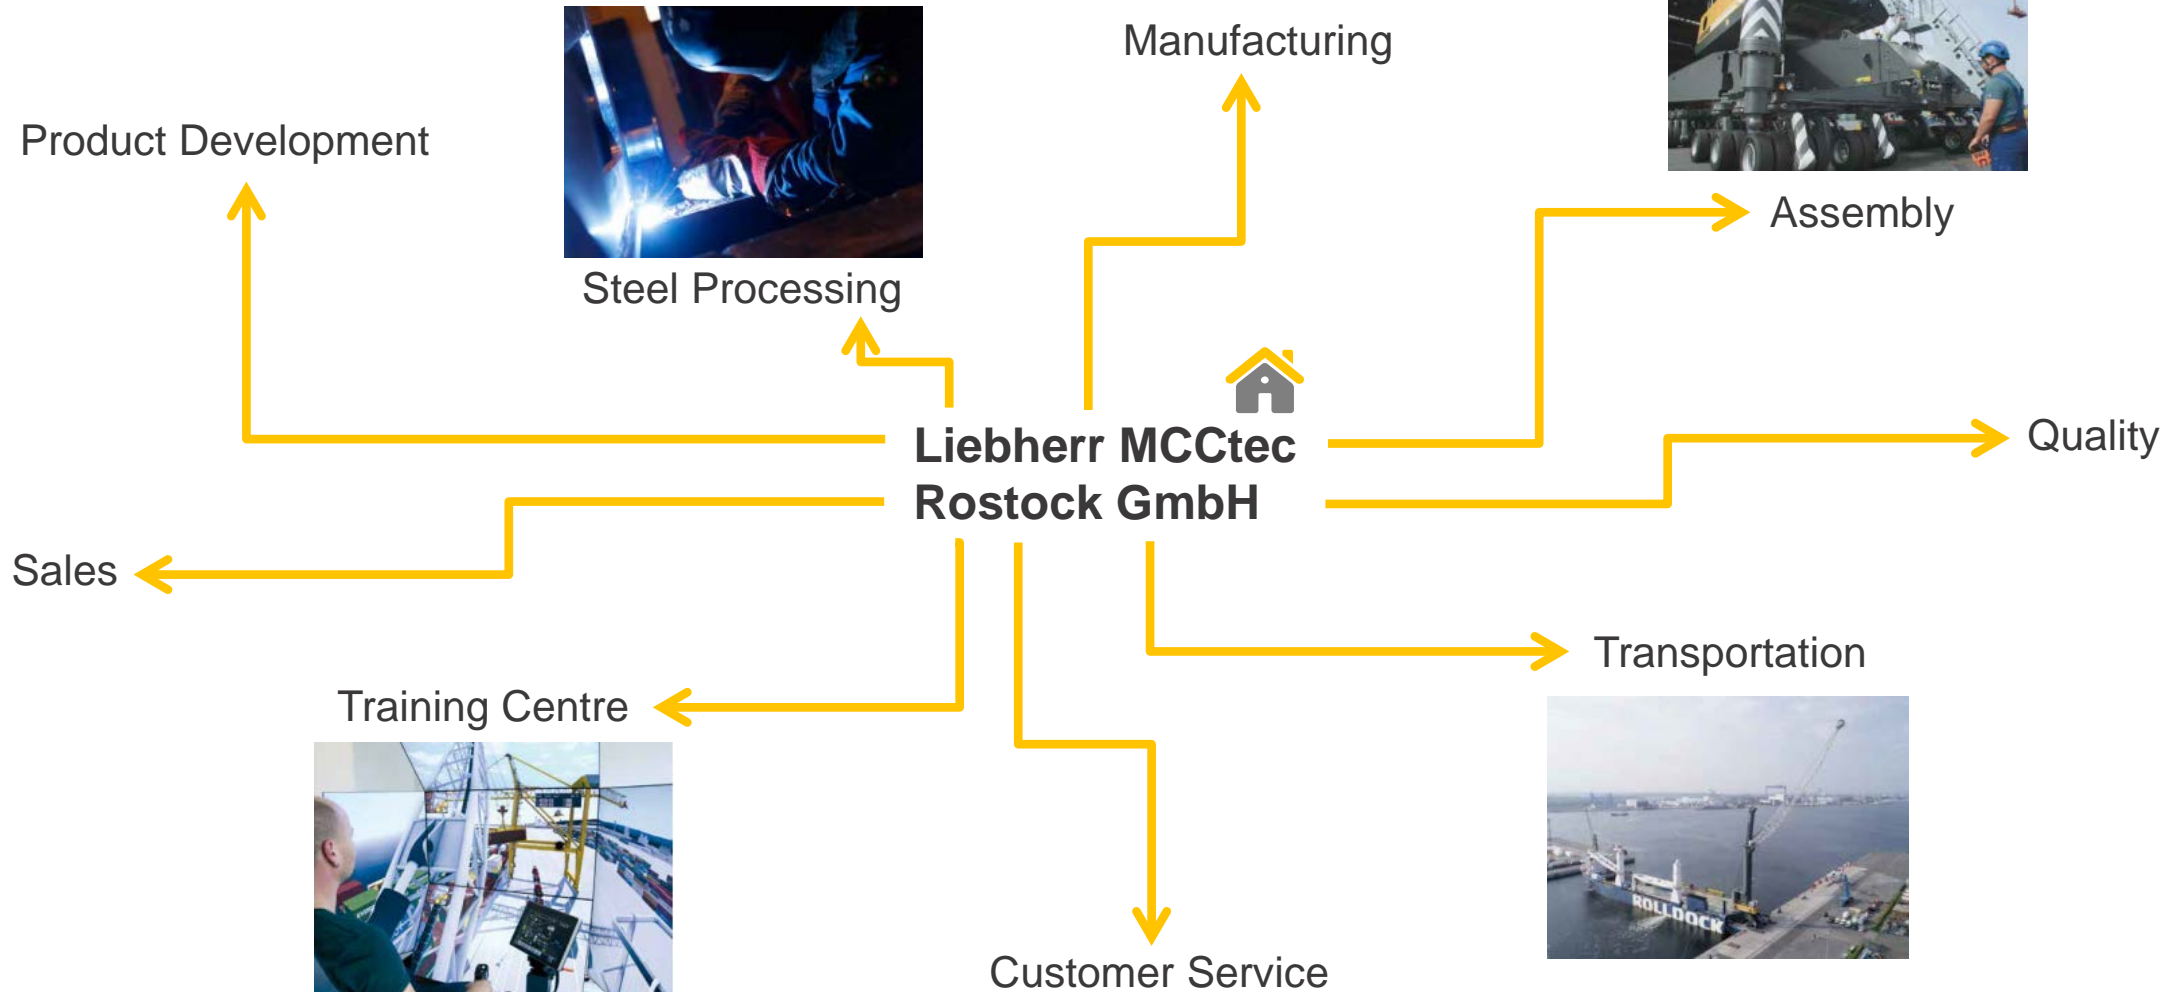

LPM – Liebherr Portal Mobile

Liebherr Mobile Harbour Crane

- ✓ High mobility & flexibility
- ✓ Tailor-made to individual requirements
- ✓ Space saving designs

Same Port, New Level - LHM

Made in Germany – All at one place
