

Women in Logistics and Transport in the Indian Ocean

- 1st July 2021 -

Note to the younger me...

Monica MICHEL-BRASSART

An underwater photograph showing sunlight rays filtering through the water, creating a serene and ethereal atmosphere. The water is a deep teal color, and the light rays are visible as bright, diagonal streaks. Some small, white, fish-like shapes are visible in the upper part of the frame.

A few words about my journey in life...

3 ADVICE

To my younger self

- *Don't let anyone tell you where you belong!*
- *Be neither a woman nor a man, but a professional worker in your professional life, seek to be a solution provider and an accomplished family head!*
- *Build yourself a character, learn from your mistakes and never stop training yourself, move forward, update your knowledge, network → the power to choose...*

LOGISTICS AND TRANSPORT :

A ~~men's~~ world Of opportunities

- *A sector that constantly needs qualified people*
- *Serves the « economic engine » of your country*
- *An opportunity to build an exciting career*
- *The Indian Ocean: an ocean of opportunities*

LOGISTICS AND TRANSPORT

The Indian Ocean...

An ocean of opportunities...

- *At the heart of worldwide trade*
 - *A challenging area: Réunion, Mayotte, Mauritius, Seychelles, Madagascar, Comores...*
 - *Competition, but also cooperation opportunities far beyond logistics and transport...*
 - *Logistics & Transport: essential to fight the covid pandemic, women were and are at the forefront of this challenging « chain » requiring adaptability, new vision and multitask qualities...*
-
- *A complex world & a versatile environment: requiring to adjust the language, demonstrate the capacity to be in line with our counterparts. As women, we already master this capacity in private spheres.*

*Thank you
For your attention*
