Solvo.TOS 6.0

Комплексная ИТ-система управления:

■ Многопрофильными морскими портами терминалами

■ Морскими контейнерными терминалами

■ Сухими портами терминалами

■ Железнодорожными терминалами

Новый уровень автоматизации порта

- Управление любыми видами грузов в одной системе;
- Автоматическое планирование погрузки/выгрузки любых типов судов;
- Генетические алгоритмы синхронизации любых типов причальных перегружателей;
- Графический план судна в 3D;
- Поддержка Android-клиента для ТСД;
- Полная поддержка OCR; и многое другое

ABOUT THE PORT

- The Port of Constanta is located at the crossroads of the trade routes linking the markets of the landlocked countries from Central and Eastern Europe with the Caspian region, Central Asia and the Far East.

- It is the main Romanian port on the Black Sea, playing a highly important role as the transit node for the landlocked countries in the Central and South-East Europe.
