Education Support Investing in the Future of Egypt

Port Said University

Delivers joint training programs, technical skills alignment, and seamless transition pathways from academic studies directly to maritime employment.

Arab academy for science and technology

Provides specialized logistics, supply chain, and container port operations protocols, reinforcing SCCT's core business expertise in addition of PTI program protocol.

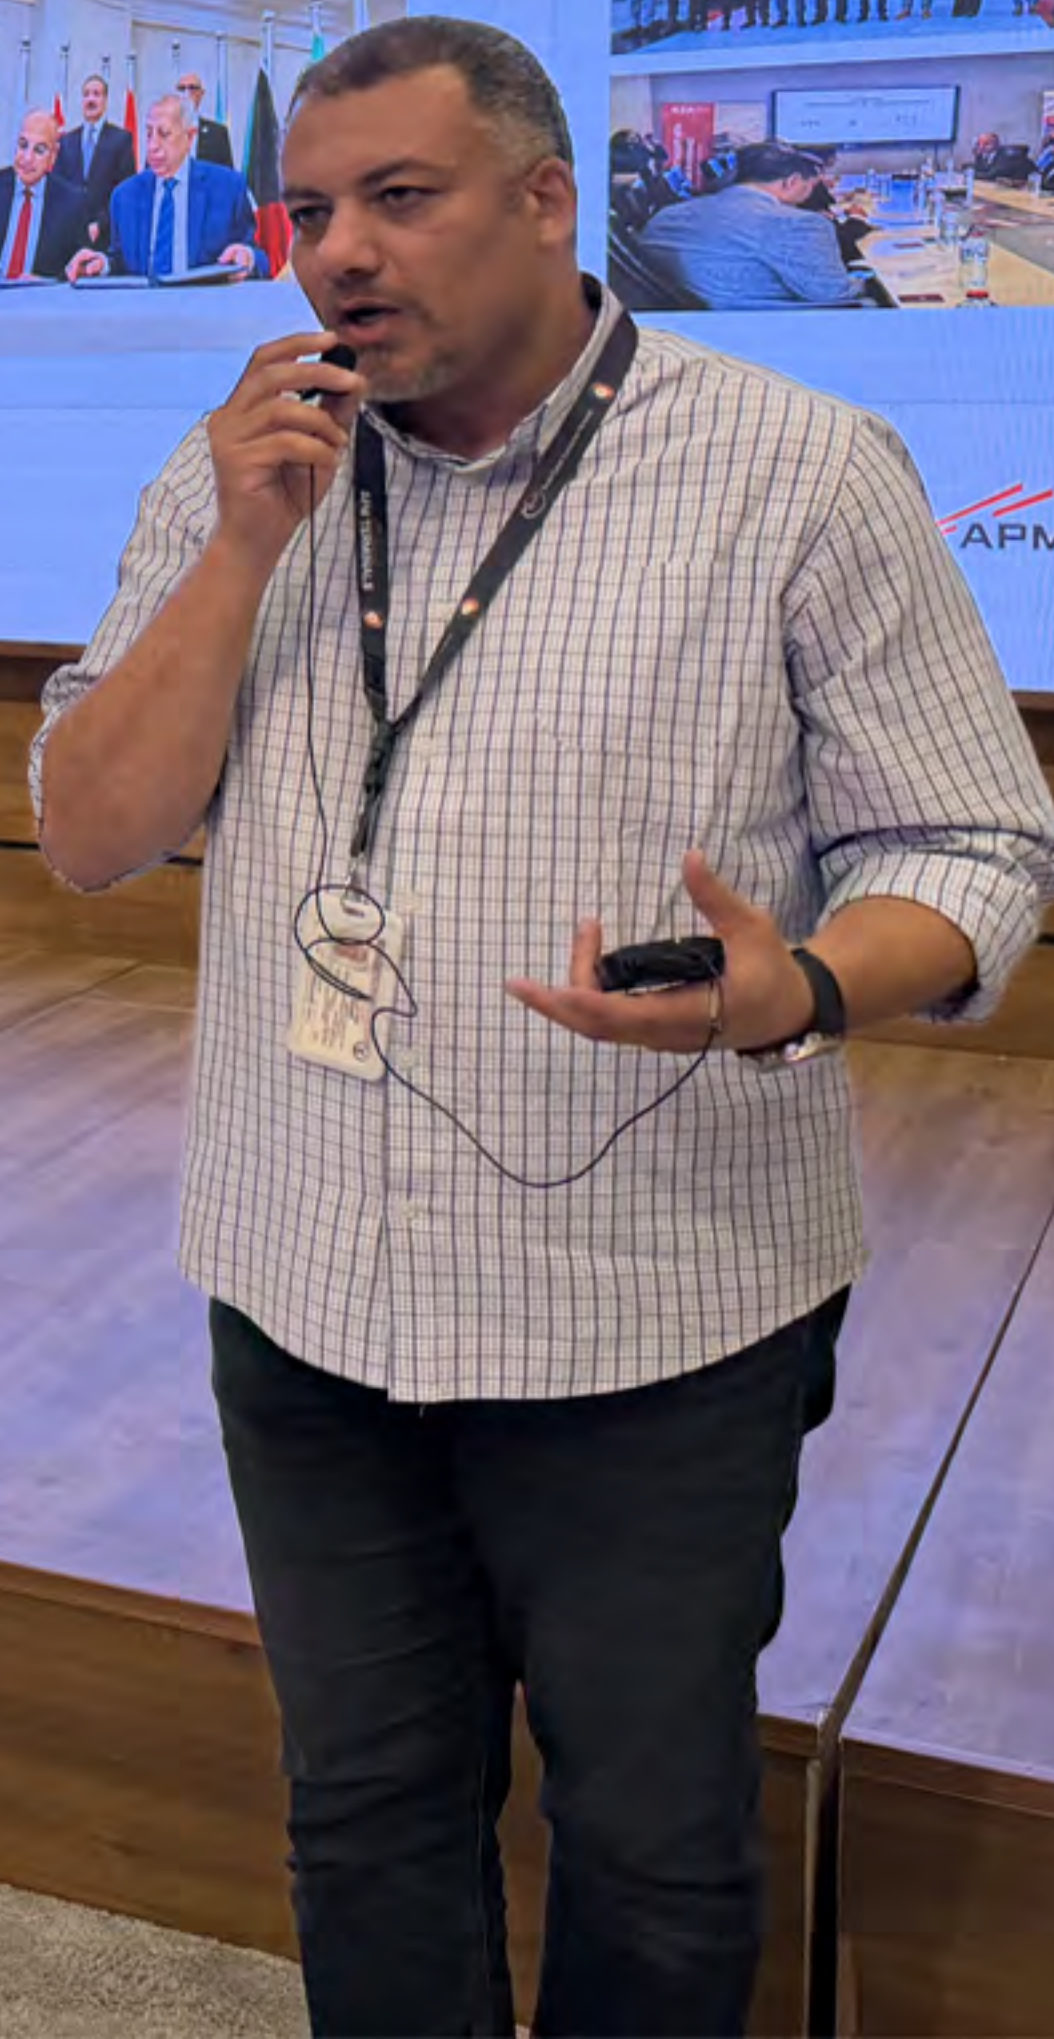

El Sewedy University Of technology

Focuses on technical skills, work-based learning, and practical training exposure to prepare young Egyptians for future technical careers.
