

Azurite

A Holistic Middle Corridor Approach

China to Europe - MIDDLE CORRIDOR

Challenges on Caspian and Black Sea

Consistent cargo flow

- Volatile cargo flows from China
- Large imbalance in Eastbound and Westbound cargo volumes
- Seasonal outputs from Central Asian countries
- Inconsistent Import Flows

Infrastructure

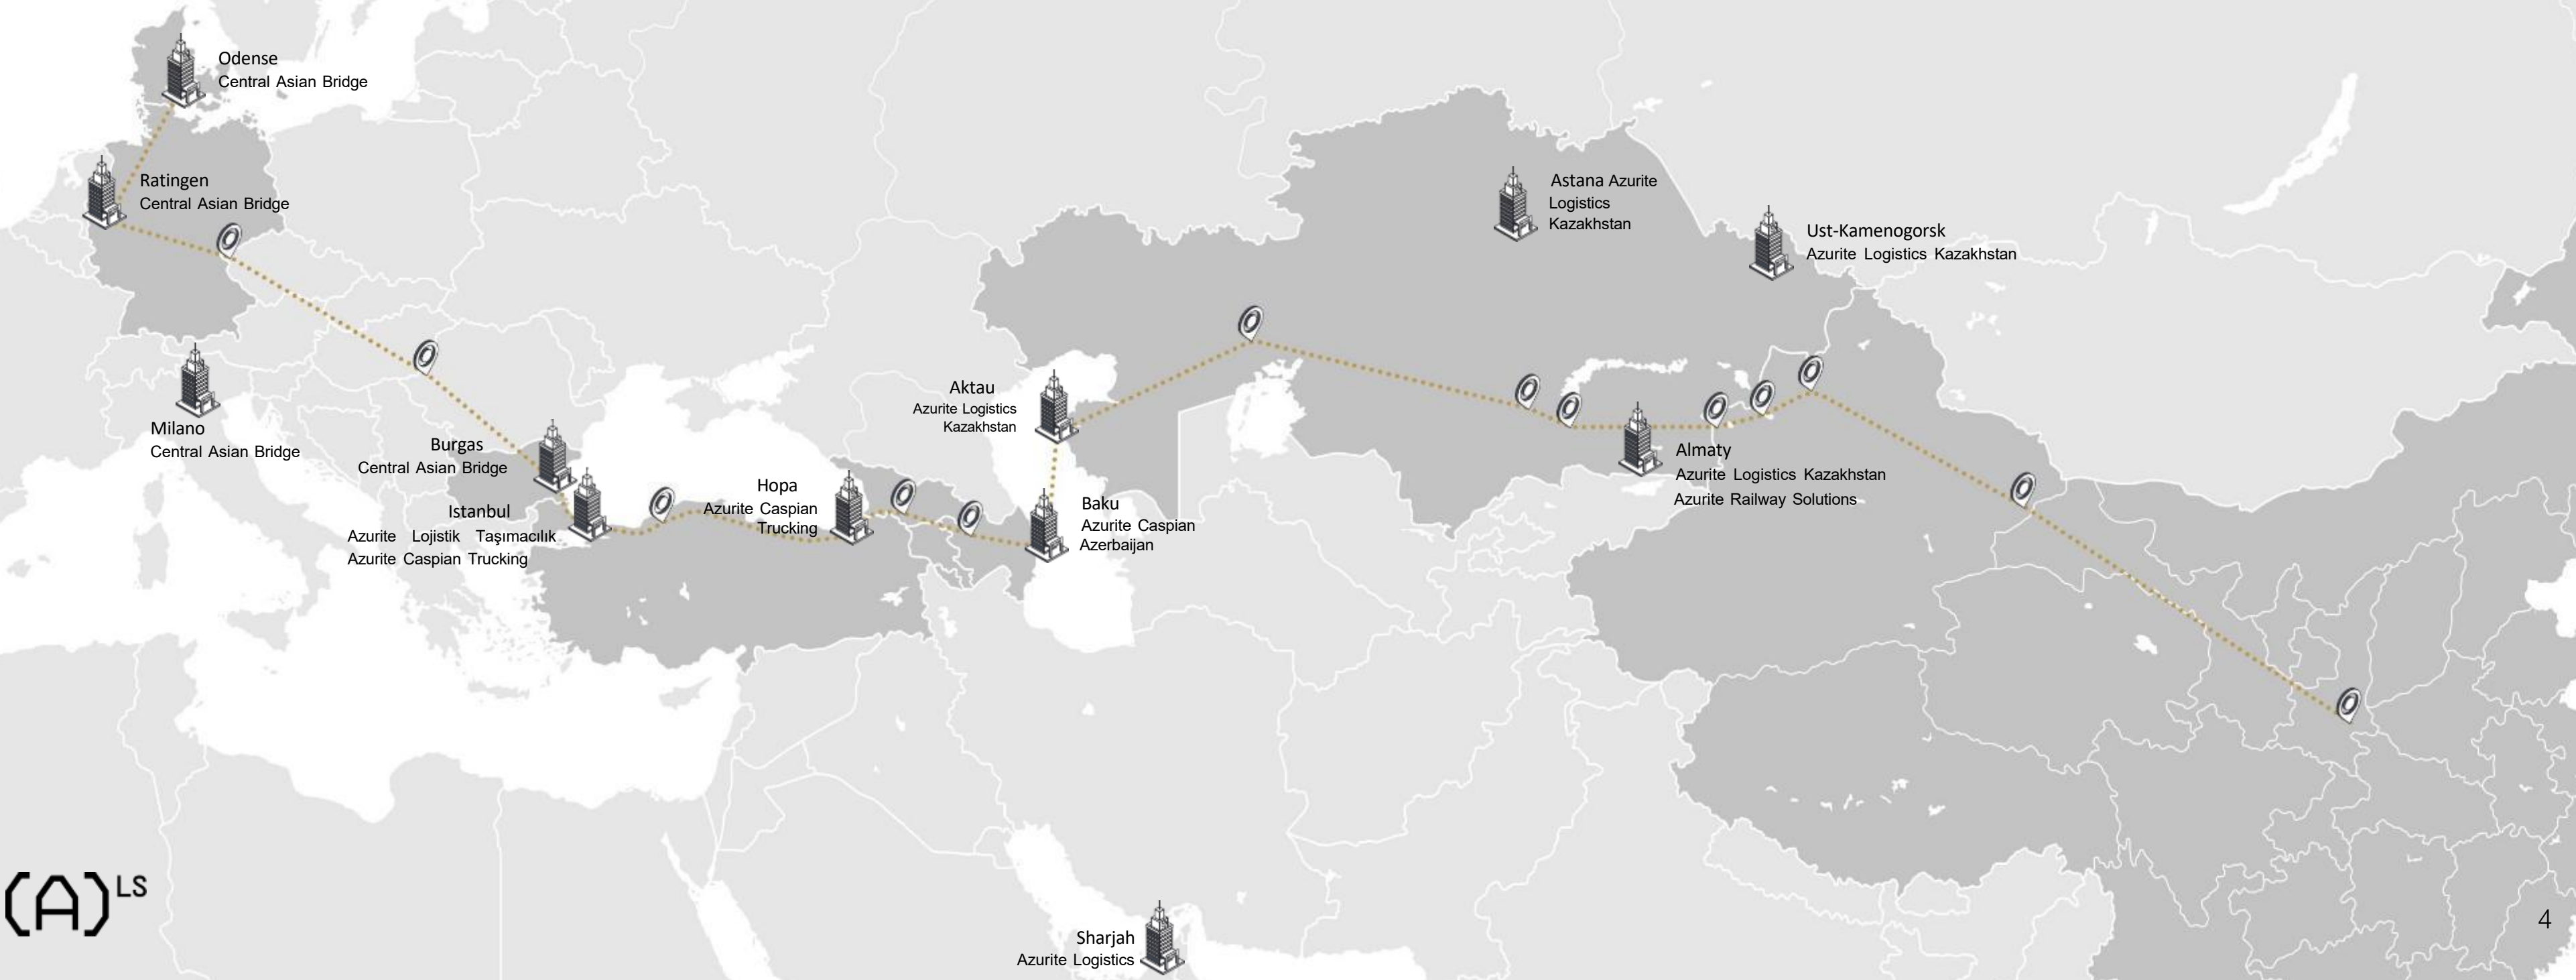

- Railways
- Terminals
- Ports
- Fleet
- NETWORK

COMMUNICATION

- Keeping it simple
- On time
- Correct

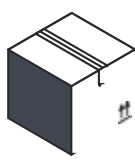

We are committed to enhancing the Middle Corridor as a critical logistics route, facilitating efficient trade between Europe and China through Azurite and Central Asia.

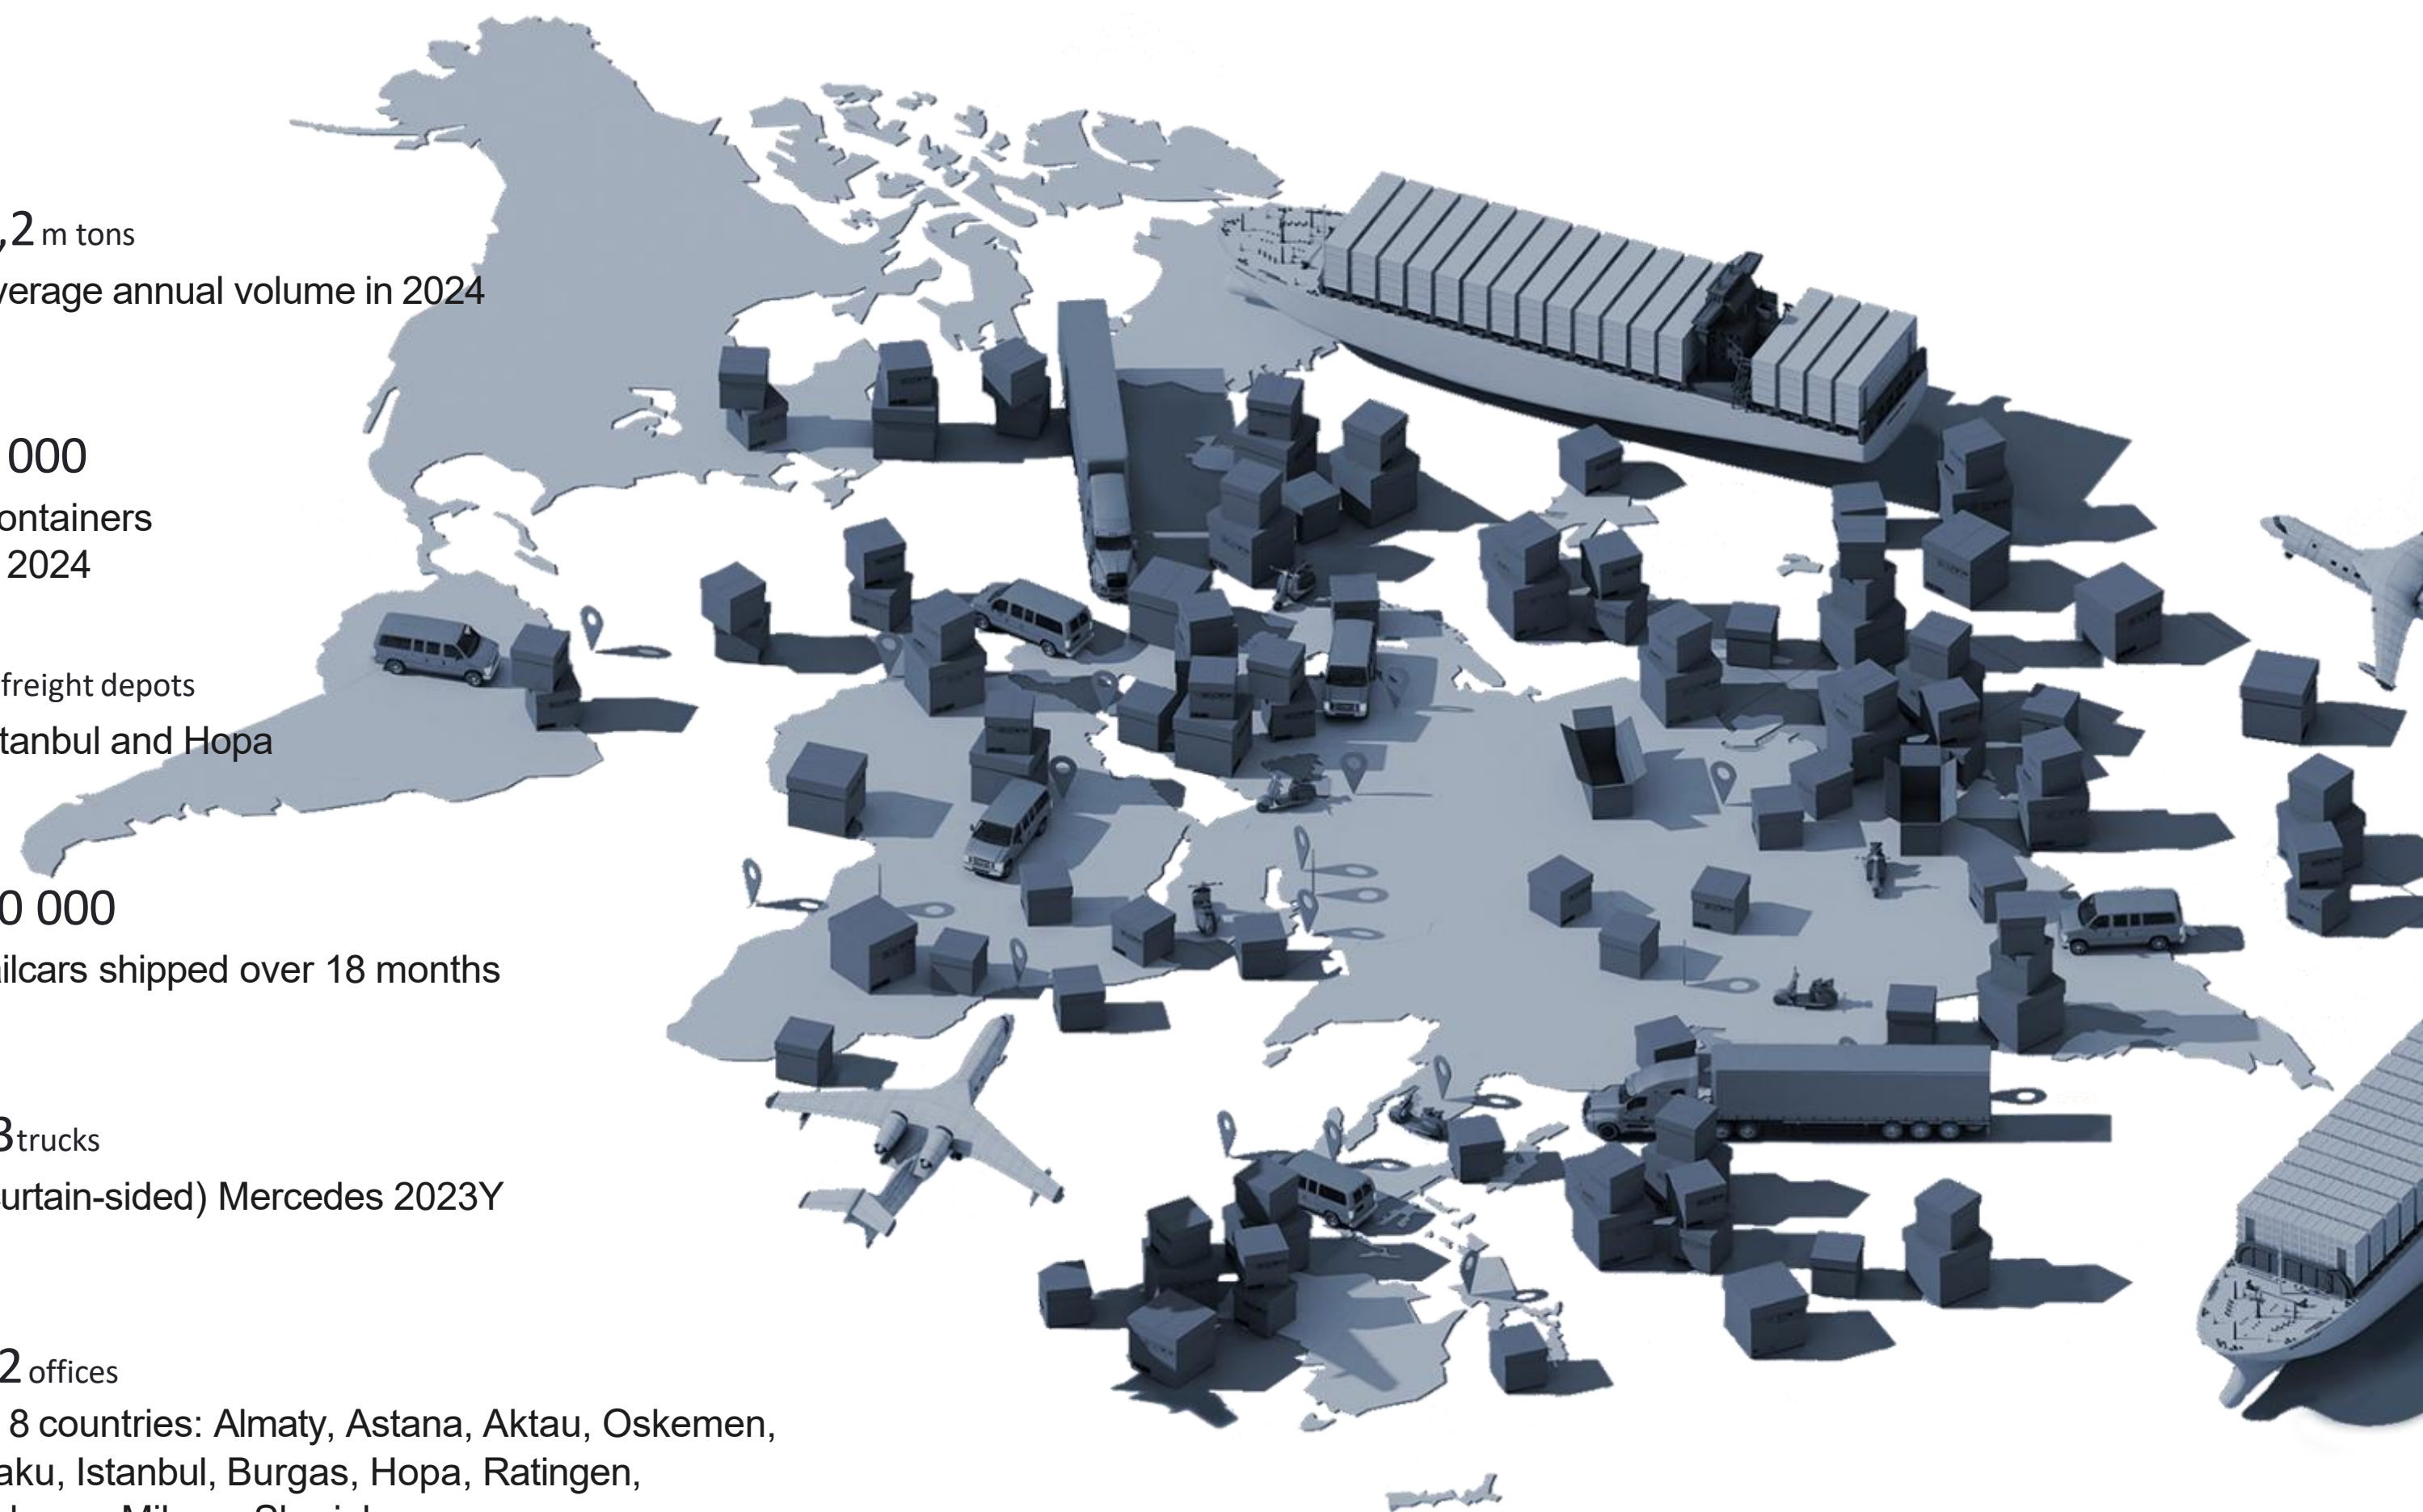

Having built a network of 12 offices across 8 countries over the past decade, we remain committed to growth.
Our upcoming Shanghai office will further strengthen our operational reach along the Middle Corridor.
