2		EPIBAL	Naval Yard	...
3		Multiterminais	General Cargo Terminal	10 M
4		Noatum	Multipurpose Terminal	10 M
5		Sogester	Container Terminal	11,5M
6		Sonangol	Oil Terminal	-12,5M
7		DP World	Multiuse Terminal	12,5 M

Dredging Project: Preparing the Port for Next-Generation Vessels

The Port of Luanda will soon begin dredging works aimed at standardizing the depth of its terminals, replacing the current range that varies between **5.5 and 12 meters**.

This intervention will enable the reception of large vessels with capacities of up to **14,000 TEUs**, significantly enhancing the port's competitiveness and logistical efficiency.

At the same time, the construction of a new **electrical substation** is already underway, which will ensure greater stability and energy supply capacity for port operations.

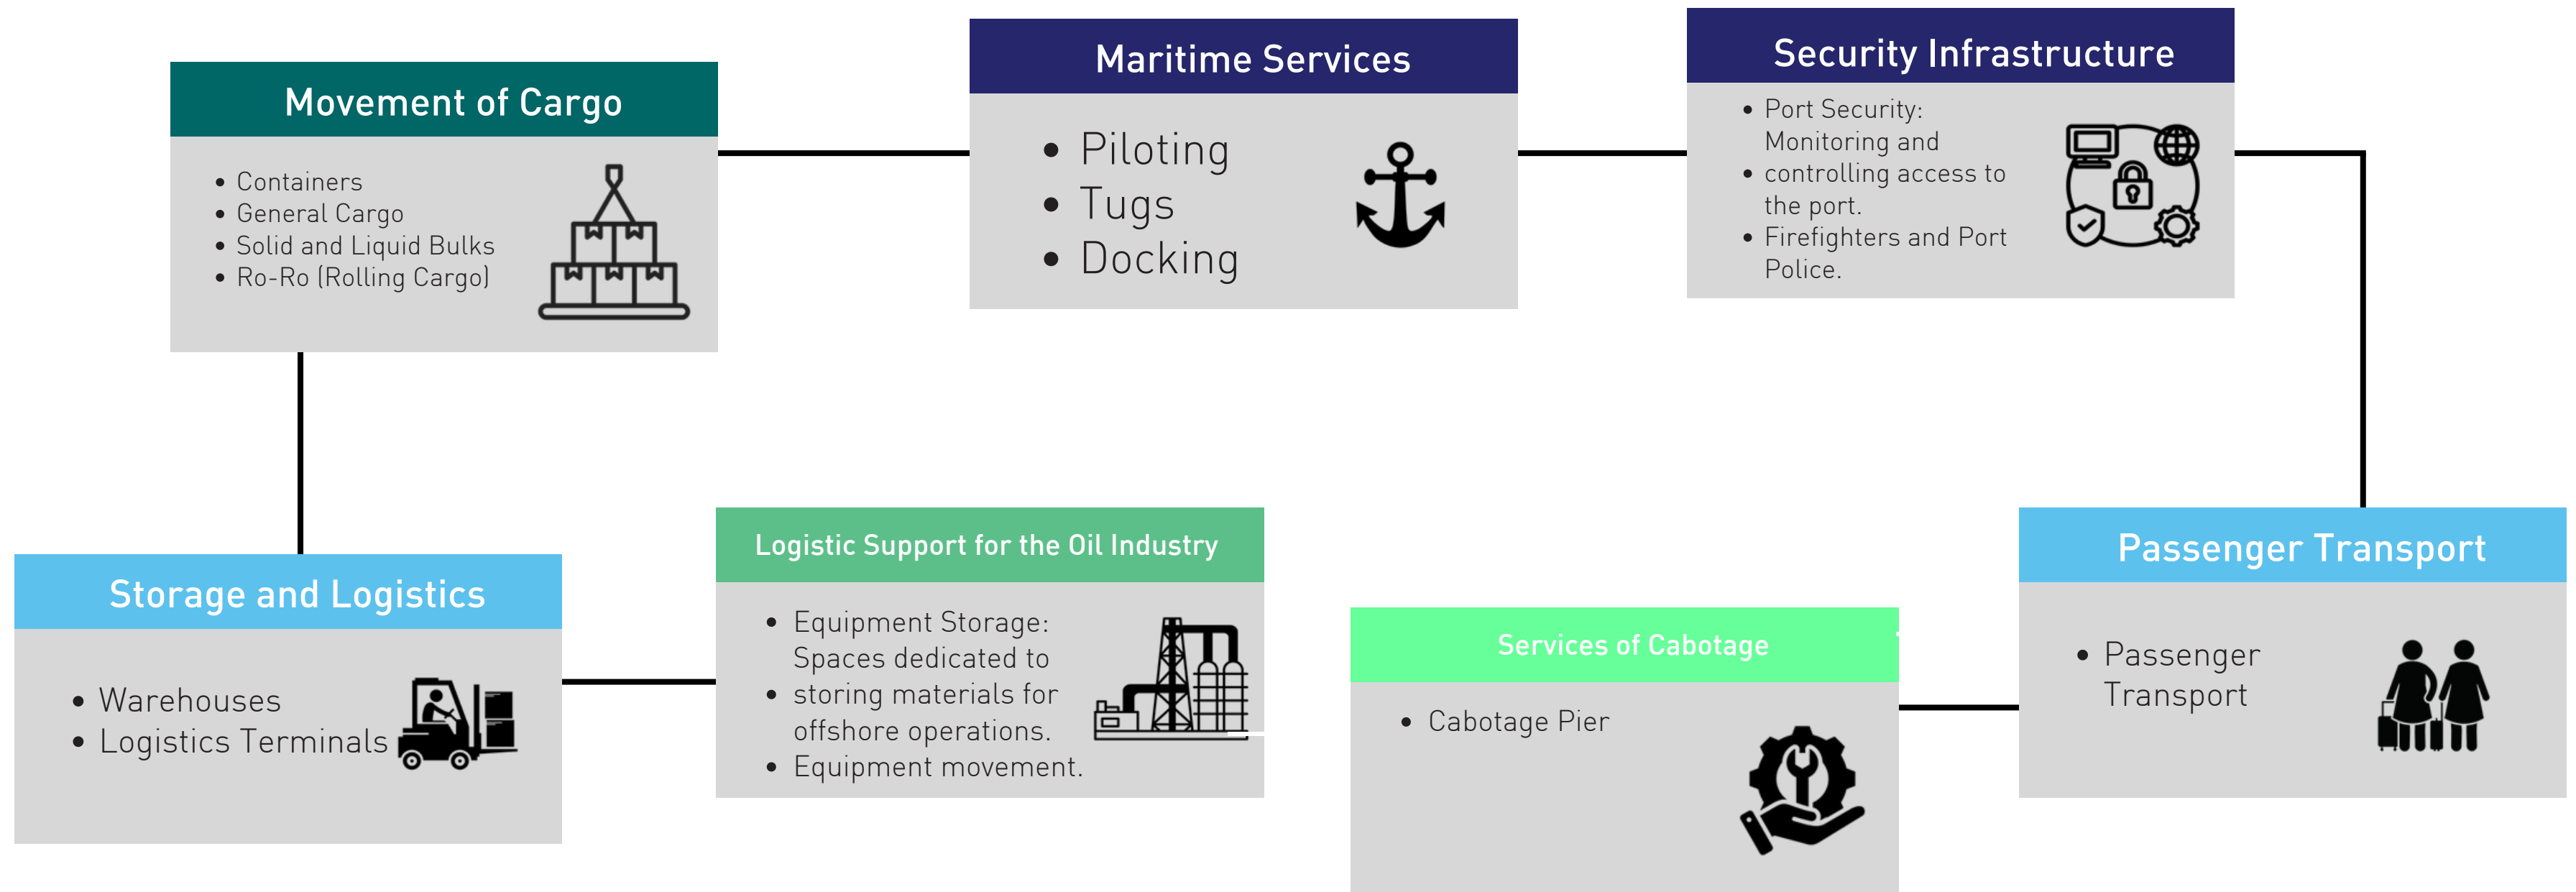

Port Services

Port of Luanda – Future Without Borders

Port Services

The Port of Luanda, as one of the leading ports in Southern Africa, offers a wide range of excellent port and logistics services.

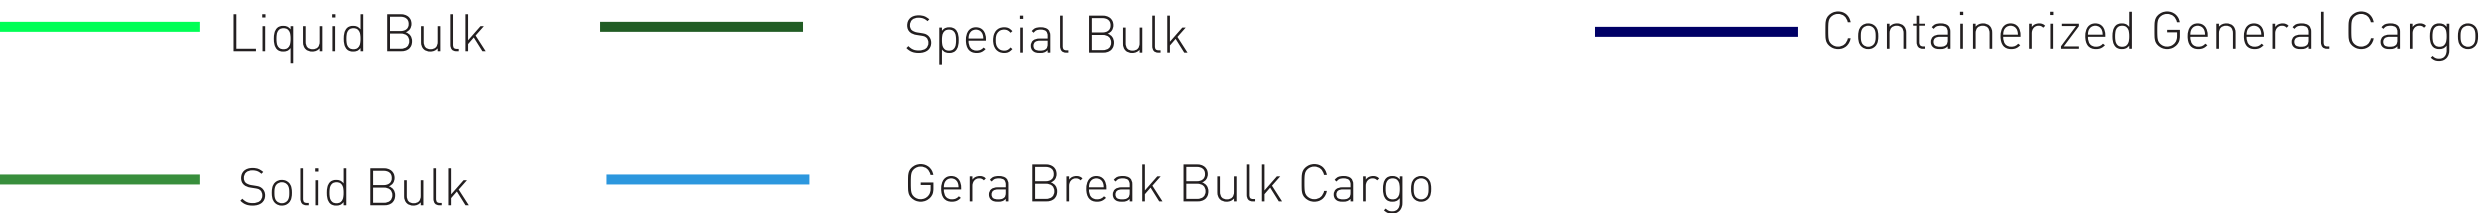

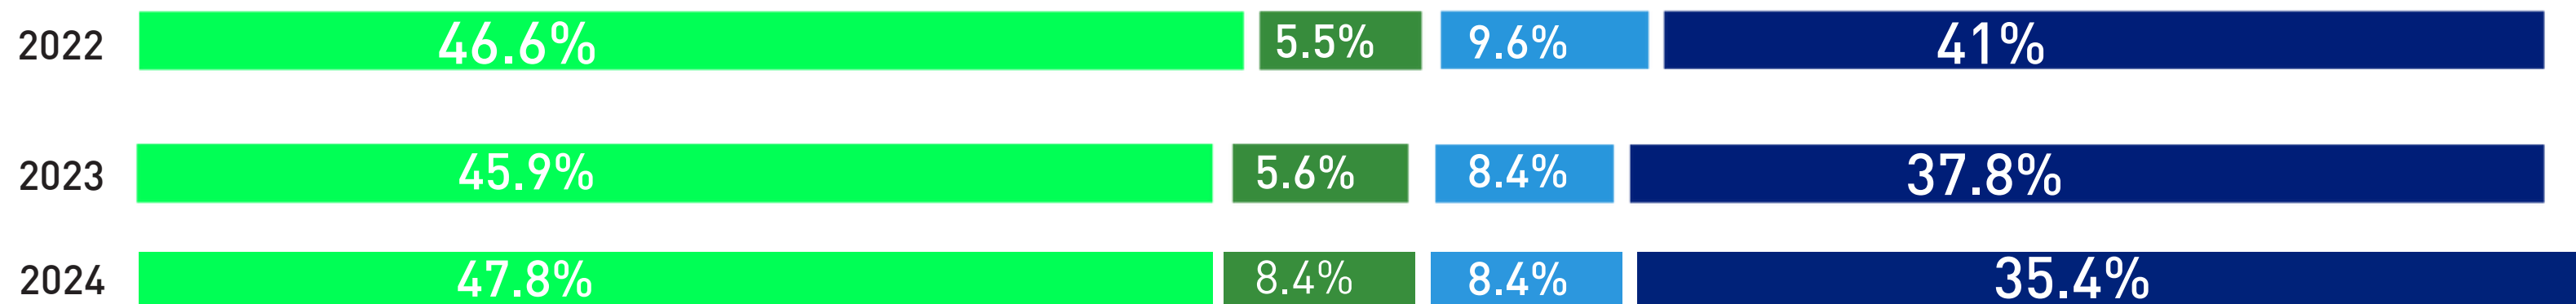

Port of Luanda: Catalyst for Growth and Economic Efficiency

Port of Luanda – Future Without Borders

Cargo movement by type (2019 - 2024)

The Port of Luanda is one of the main economic pillars of Angola, playing a crucial role in national and regional development. The port is essential for cargo movement, facilitating international trade and supporting the supply chain of local industries. Its history, marked by successive expansions and modernizations, reflects a continuous commitment to efficiency and a positive impact on the country's economy

Sustainability and Social Responsibility

Port of Luanda – Future Without Borders

Commitment to Sustainability and Global Responsibility

The Port of Luanda reaffirms its commitment to sustainable practices and global responsibility, promoting initiatives that drive social and environmental development.

The Pro Jovem Programme aims to support youth projects through our Ekanda initiative, providing resources and guidance.

The growing efficiency of the Port of Luanda is driven by continuous investment in the development of its workforce and by strategic international partnerships.

Awareness

Environment

Youth

On 25 May 2018, the Port of Luanda joined the United Nations Global Compact, reinforcing its commitment to ethical governance and sustainable development.

Port Security

Port of Luanda – Future Without Borders

Port security

The Port of Luanda prides itself on maintaining the highest safety standards, ensuring efficient and secure operations for all its users. To achieve this, it offers the following services and infrastructure for its operations.

Security measures

-  **Firefighters:** A team of trained firefighters ready to respond to any emergency.
-  **Port Police:** Security is reinforced by the constant presence of police in the port.
-  **CCTV:** Continuous monitoring of facilities with CCTV systems.
-  **VTS** stands for Vessel Traffic Service: It enhances navigation safety and improves the efficiency of maritime traffic management.
-  **Lighthouses:** Strategically positioned to ensure navigational safety in the vicinity of the port.
-  **Navigation Support:** Continuous support to ensure all vessels operate safely and efficiently.

A wide-angle photograph of a calm ocean under a dark, overcast sky. A bright, shimmering reflection of the sun stretches across the horizon, creating a path of light on the water's surface. The water is a deep, textured blue with small ripples. The overall mood is serene and expansive.
