# About Us

## C. Steinweg Bridge Mozambique

- Established warehousing and logistics partner in Beira, Mozambique
- Strategic location serving hinterland countries:
  - Zimbabwe
  - Zambia
  - Malawi
  - DRC
- Services:
  - Warehousing & storage
  - Cargo consolidation
  - Customs facilitation
  - Transport

# The Challenge

- Key issues impacting sustainable throughput:
- • Congestion at port gates and terminals
- There is no 24/7 environment
- • Delays in cargo clearance and documentation
- • Limited warehousing space during peak seasons
- • Inefficient cargo handling

# Our Approach: Optimising Logistics Efficiency

-  Integrated Warehousing & Port Operations
  - Direct links with shipping lines and port operator
-  Digital Solutions
  - Warehouse Management Systems (WMS)
  - Real-time cargo tracking
  - Automated reporting to clients
-  Skilled Workforce
  - Trained teams for handling diverse cargo types
  - Focus on safety and compliance

# Benefits of Efficient Warehousing in Port Logistics

- Reduced Port Dwell Time – Faster cargo evacuation → lower demurrage

- Optimised Inventory Management – Flexibility for shippers & consignees

- Lower Logistics Costs – Consolidation services → economies of scale

- Improved Cargo Security – Modern, secure facilities

# Sustainable Throughput Growth

# Our Vision for the Future

- Expand warehousing capacity near Beira Port

- Introduce digital client portals for transparency

- Enhance multimodal connections:

- Rail integrations with hinterland

- Contribute to Mozambique's sustainability goals

- Drive growth through partnerships

# Let's Collaborate

- Committed to supporting sustainable growth in Beira and the region

System integration with port authorities, port operator, customs, transporters, warehouse management systems

Real time cargo tracking

# Thank You
