Total project area: 42 ha

- Sea 15 ha
- Land 27 ha

# Phase 1: Completed in 2022

## New berth: NP\_01

- Length - 253 meters.
- Depth – 12 meters.
- Equipped with 2 portal cranes. Lifting capacity 125 Mt each.

## New warehouse: Closed

- Capacity: 50,000 mt.
- As of Today, Phase 1 has provided additional cargo throughput of 1.5 million tons per year.

# Our Capabilities/Technical Data

---

## 9 Berths

- Length: Total of 1650 meters.
- Depth: Max. 12 meters.

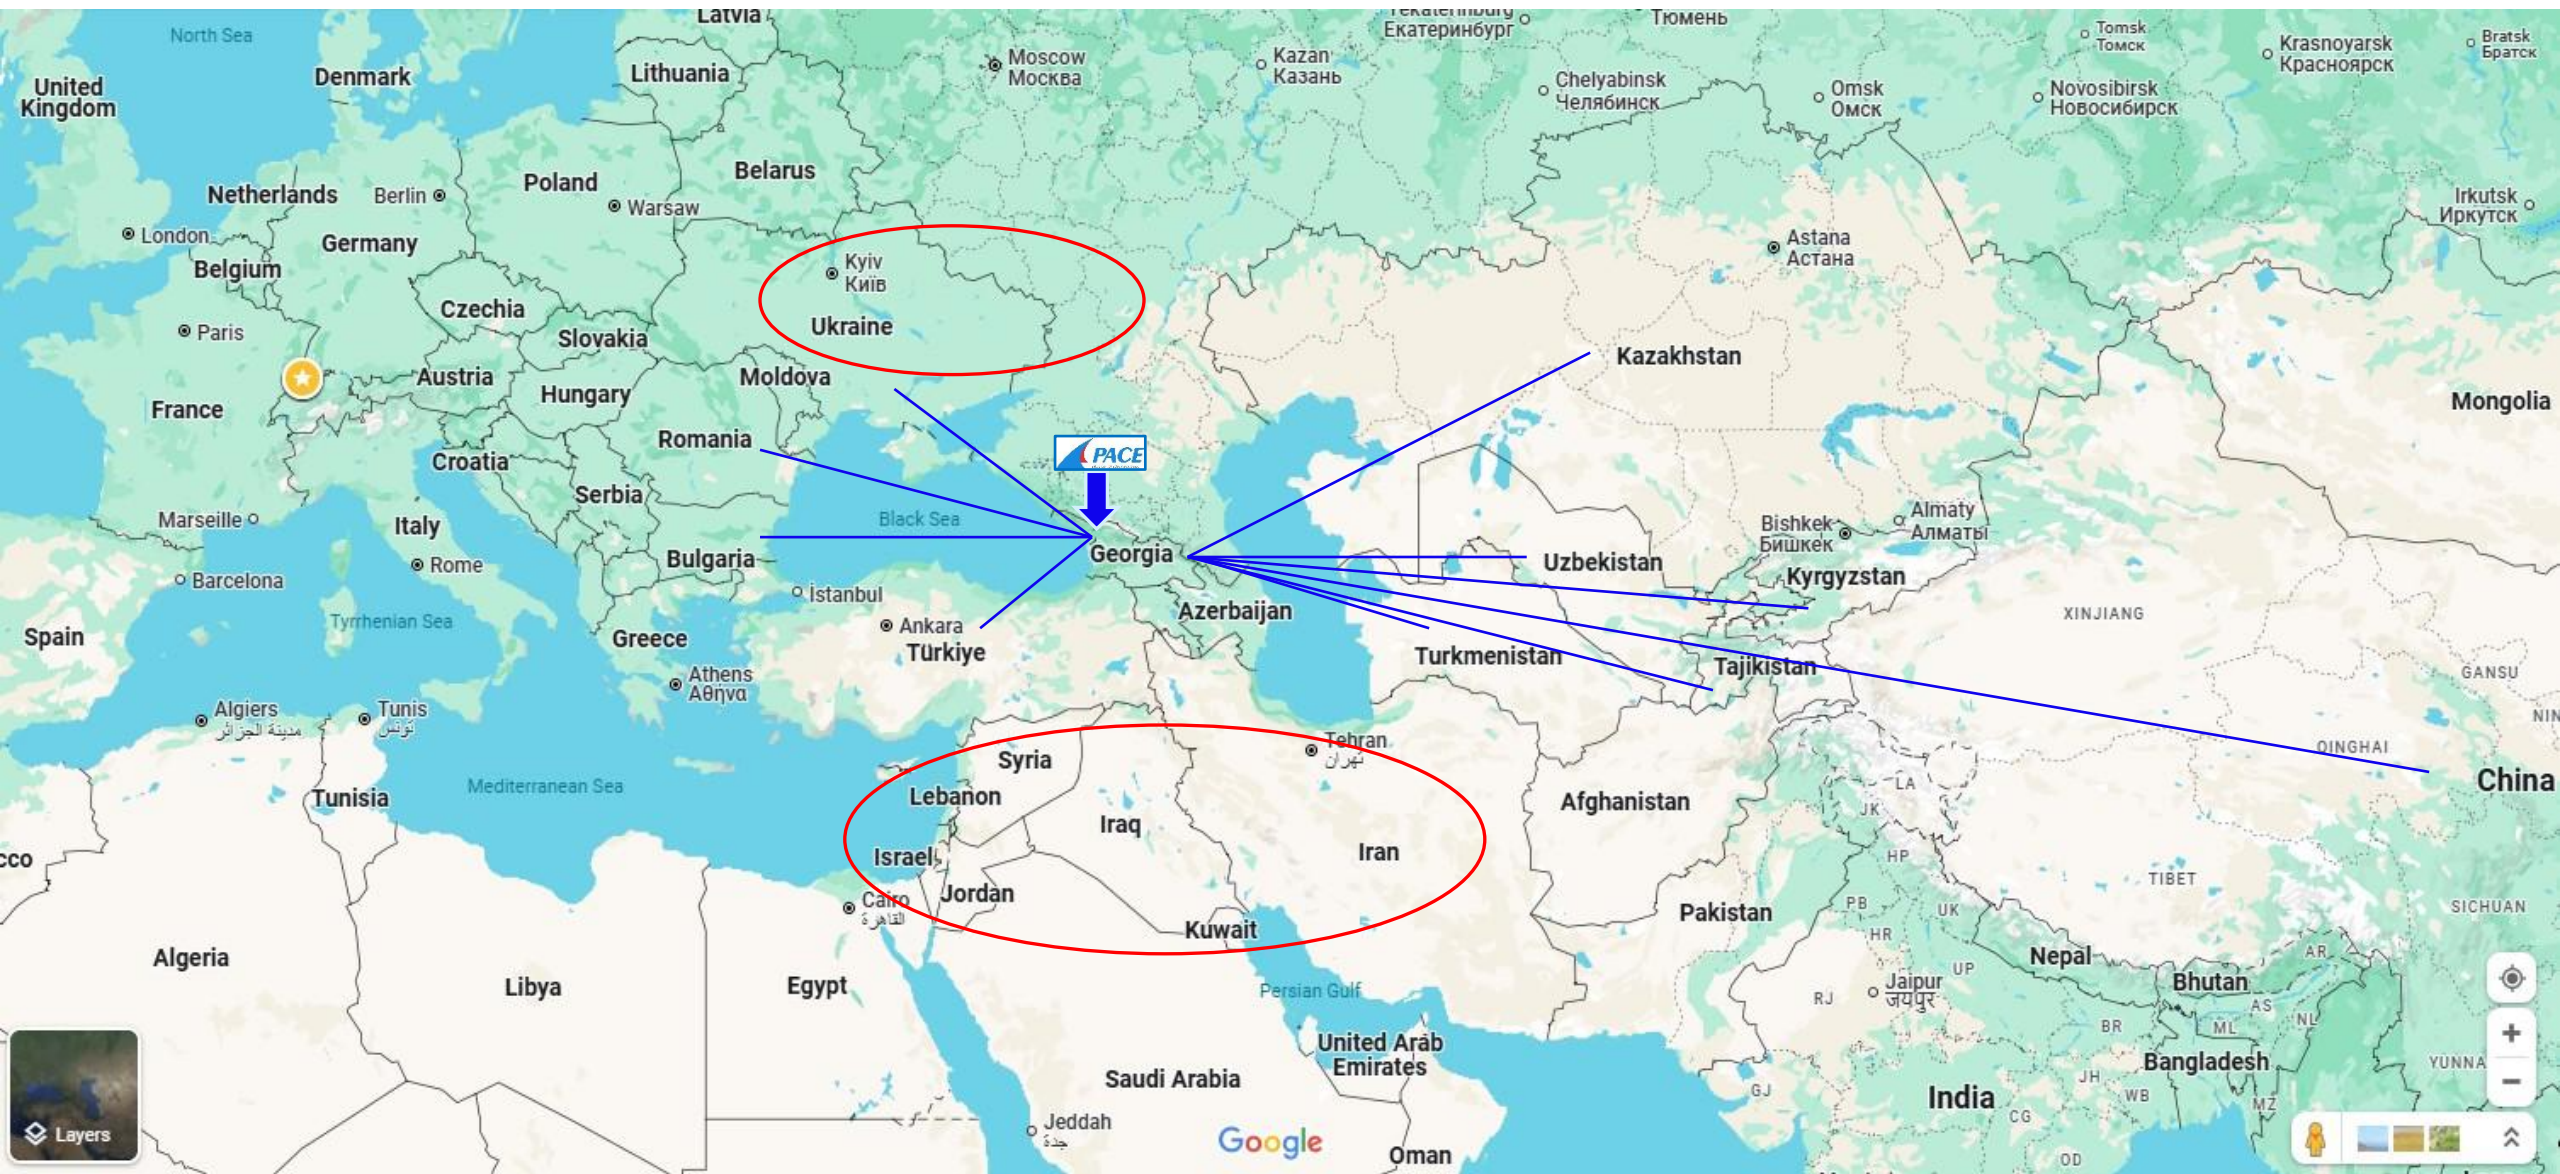

## 25 portal cranes 2 pneumatic machine

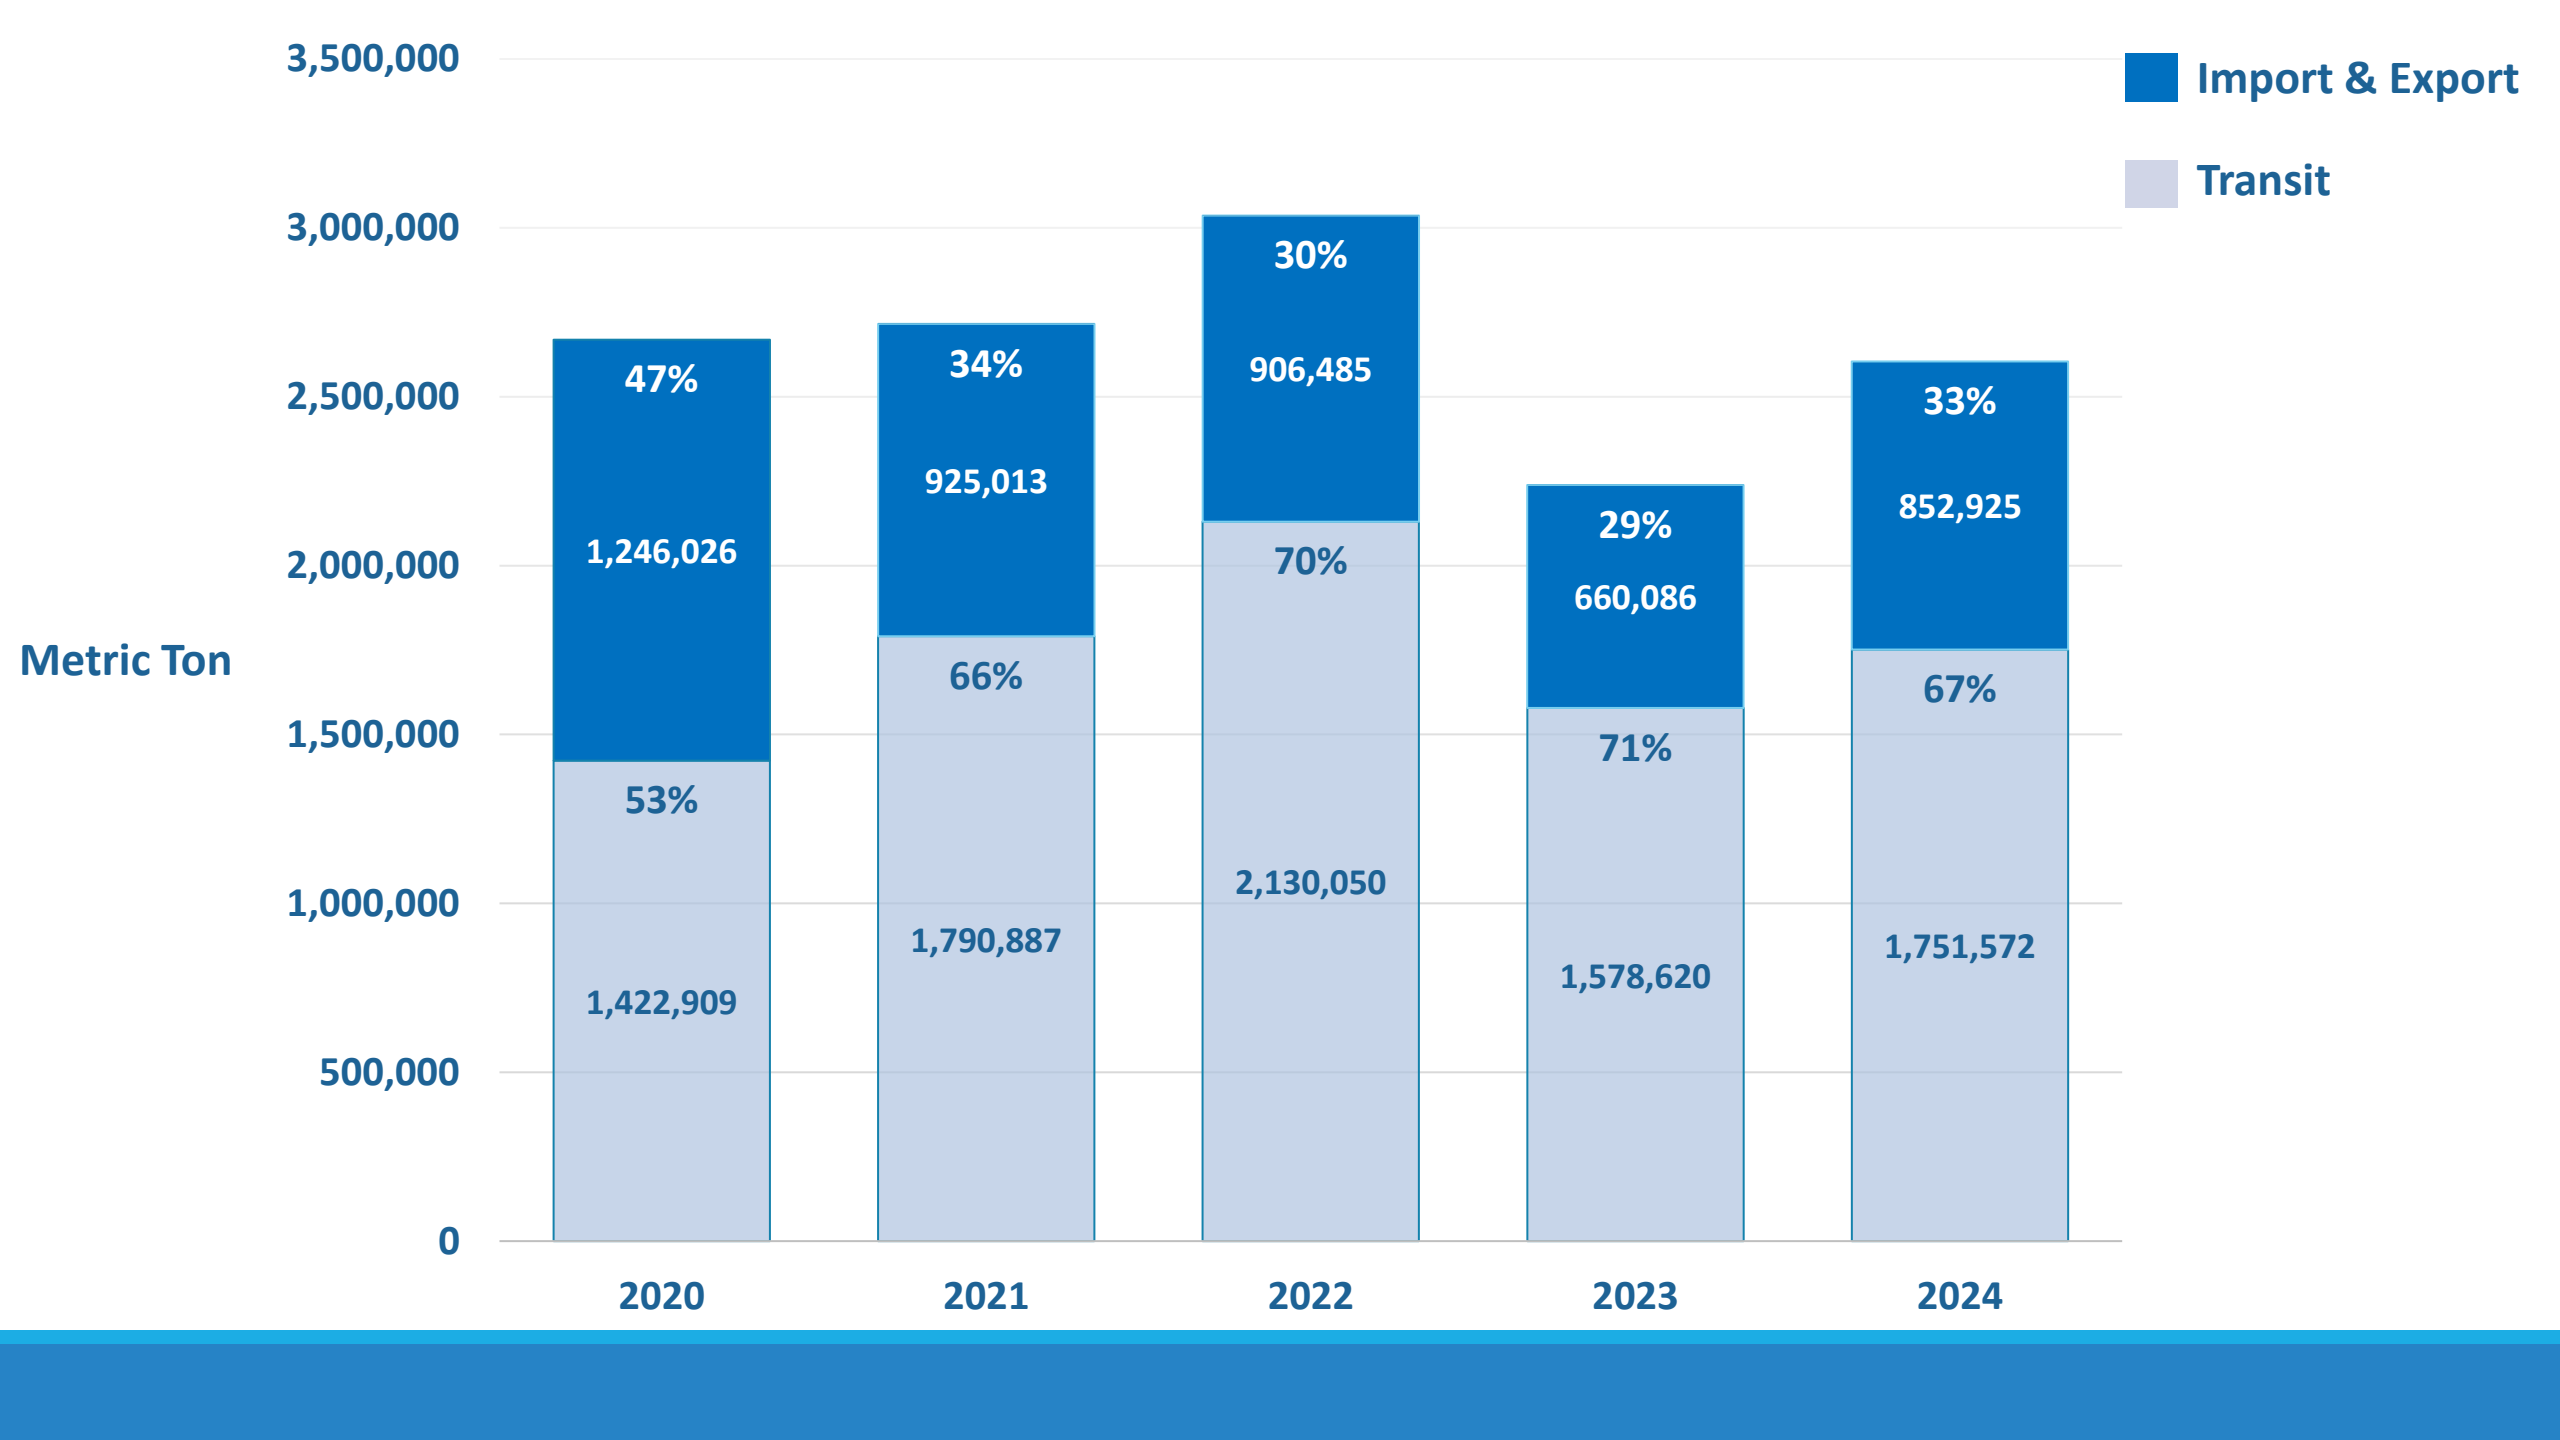

- Lifting Capacity: Max. 125mt.

## Warehouse Open/Closed

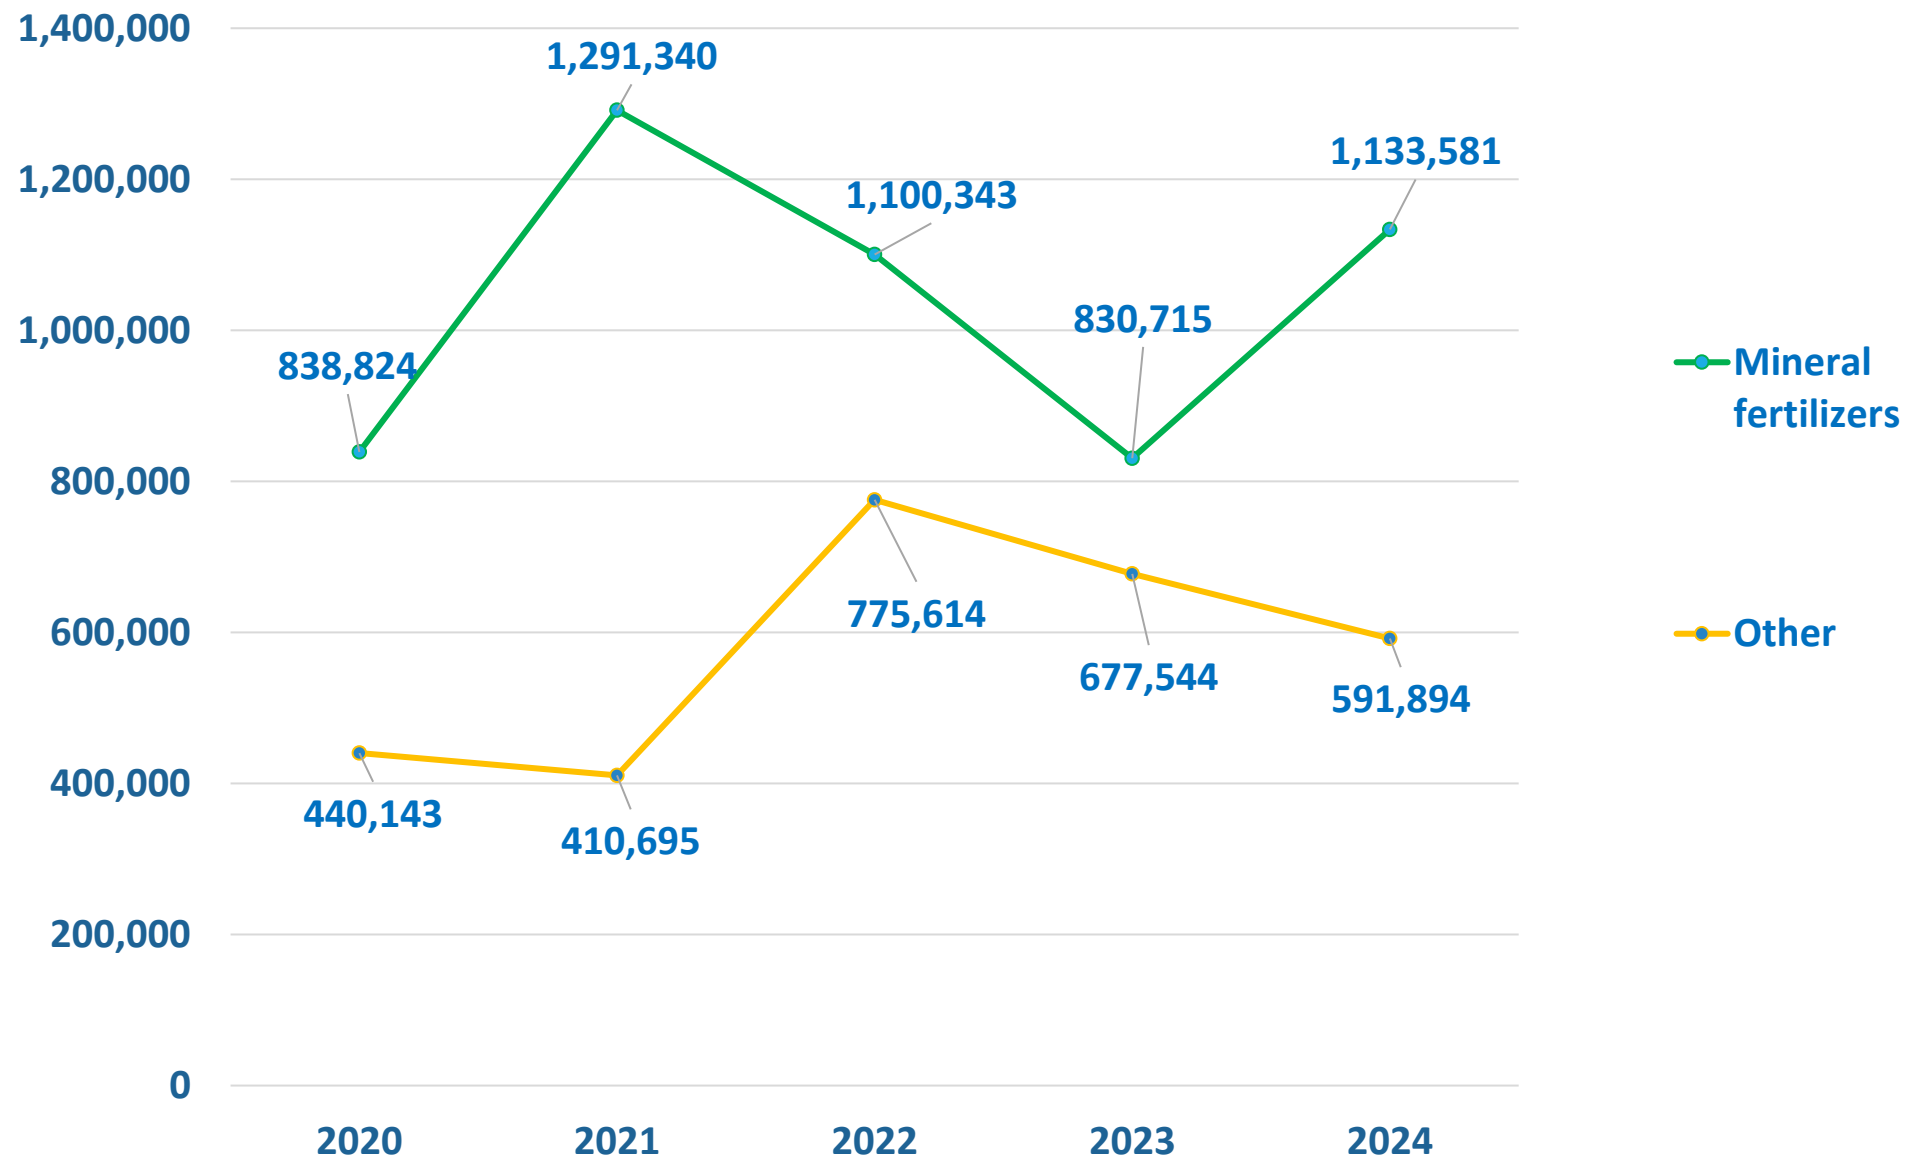

- Total of 250,000 mt.
- 3,000 TEU.

# The Middle Corridor: Trans-Caspian International Transport Route (TITR)

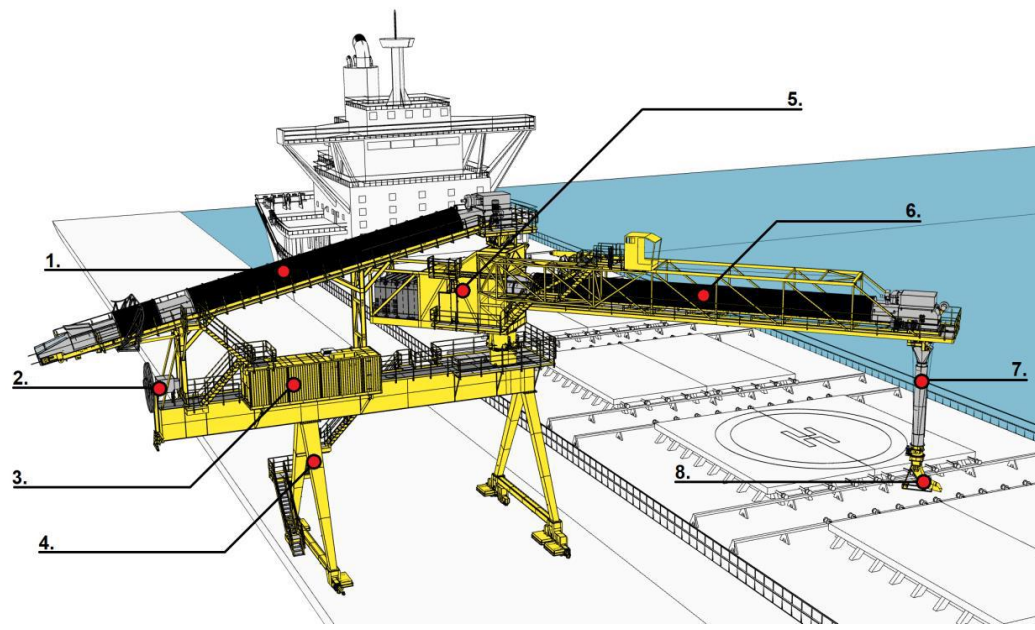

Metric Ton

# Future: Phase 2

- ❖ 1 additional automated berth to be built by 2026.
- ❖ Will be equipped with electrically powered conveyor and ship loader.
- ❖ 250 meters in length.
- ❖ Additional 1 million ton of cargo throughput per year.

## PROS:

- ❖ Electrically powered.
- ❖ Eco-Friendly.
- ❖ Time efficient.
- ❖ Minimizing human health risk.

Thank you for your  
attention!
