Developing An Integrated Trade Ecosystem in Tay Ninh

Dongtam Group's Port-Logistics-Industrial-Urban Project Cluster

A Green Port and Logistics Hub Designed for the Future

Long An International Port

Port code VNLAP

Location 10°32'12 N - 106°44'20 E

**Distance from
Pilot Station** 21 nautical miles

Access channel Soai Rap

Channel depth -9.0m (current)
-11.5m (future)

Alongside depth -12.3 to -14.4m

Turning basin Radius 400m

Tidal range -0.86m - 4.2m

Customs Long An International Port
Customs Checkpoint

Port Authority Ho Chi Minh City

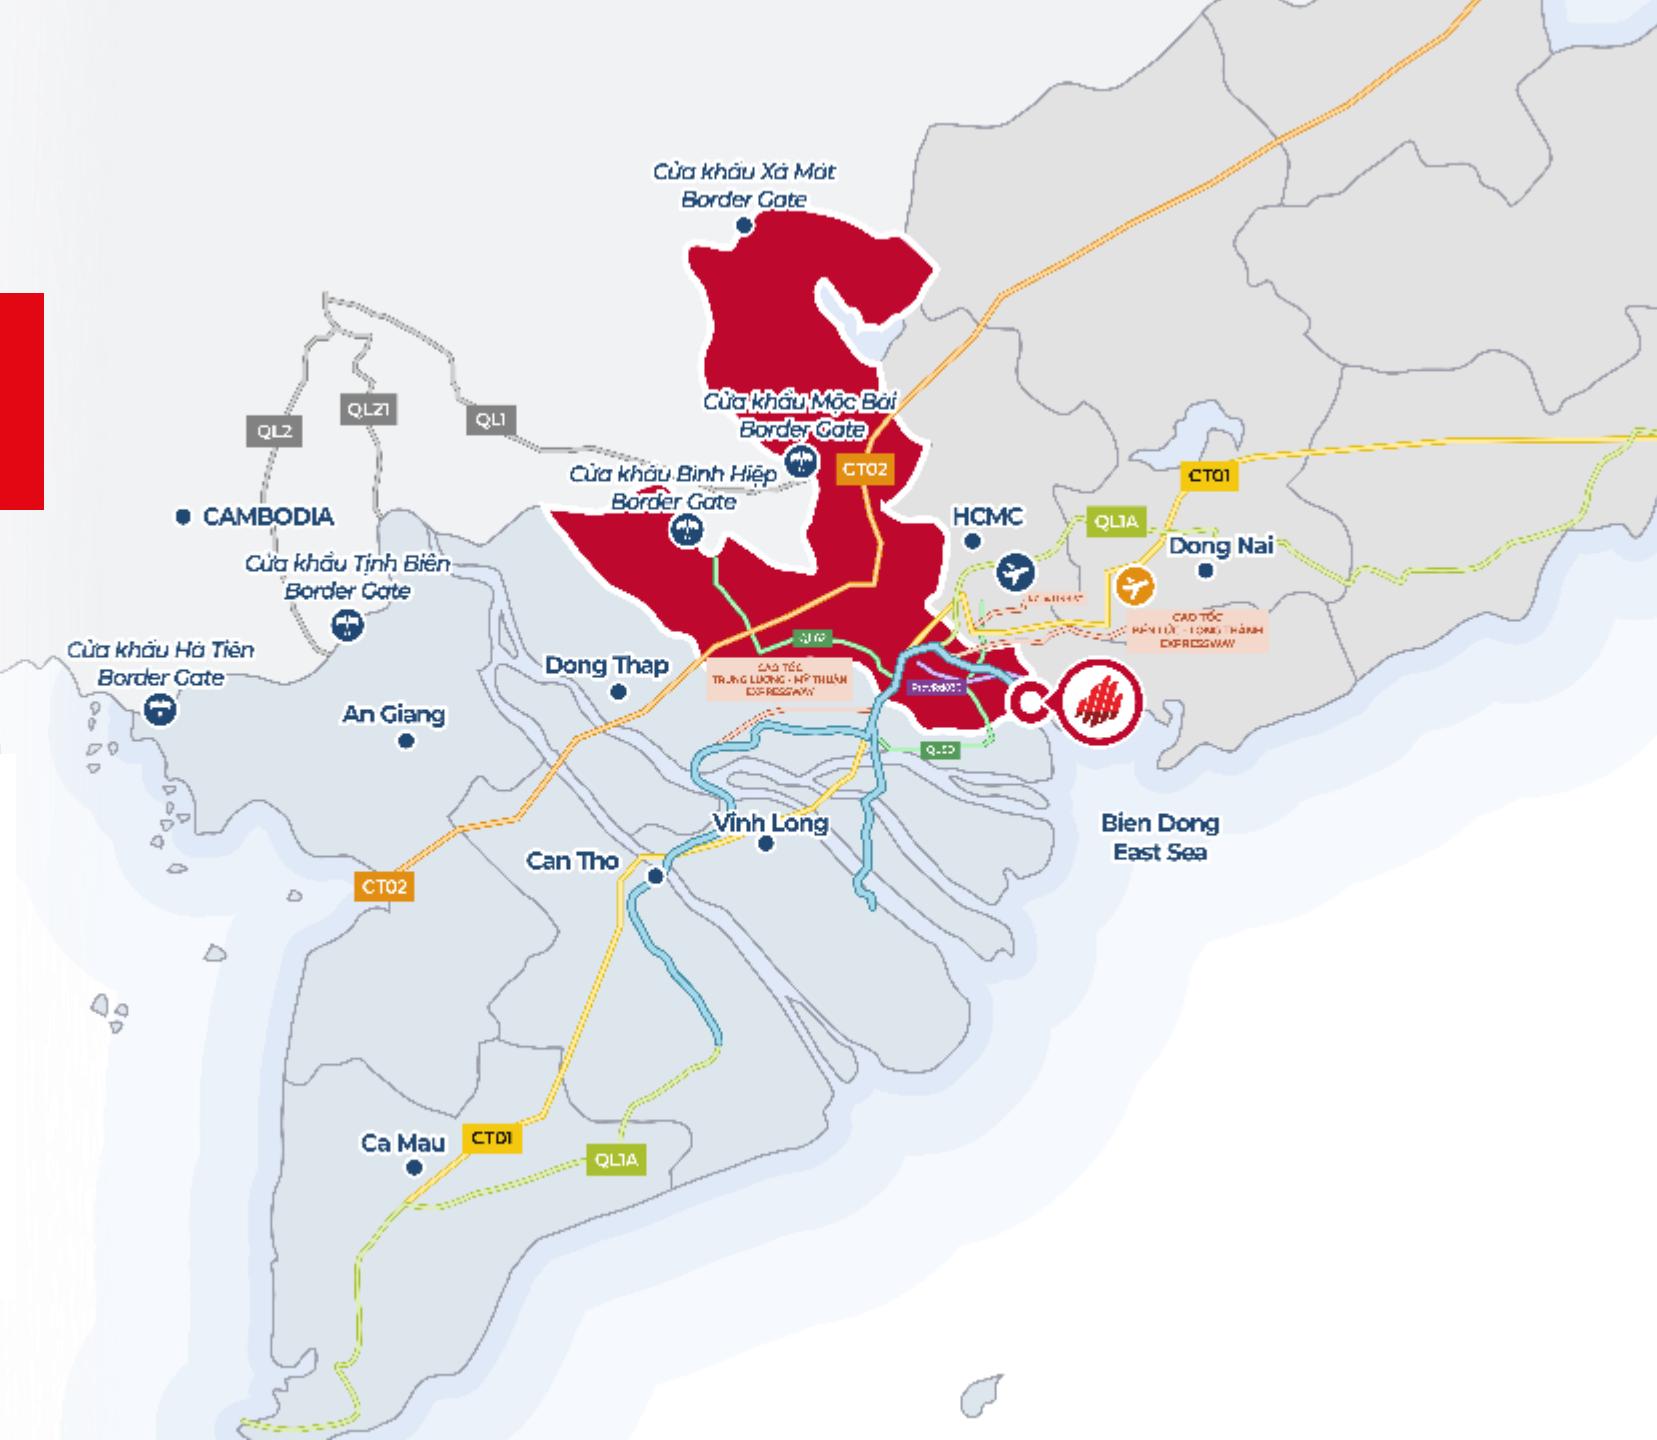

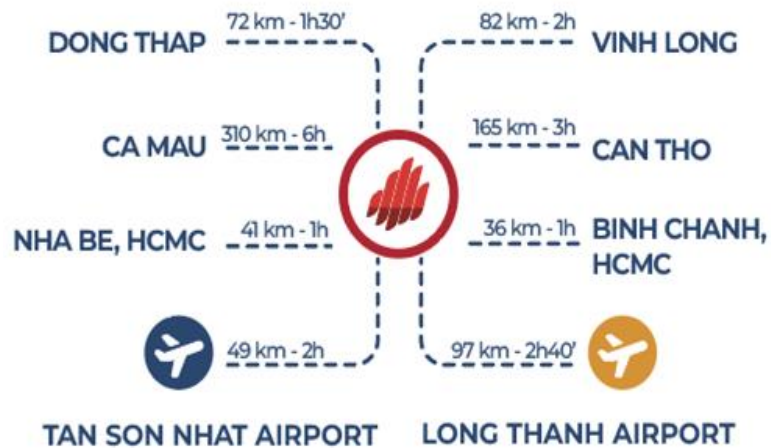

Design Capacity

Commitment to Sustainability:

Digital and Green Transformation

ISO CERTIFICATIONS

**Renewable
energy sources:**
solar panels on
warehouse
rooftops

**Process
optimization:**
CATOS, MOST,
SAP S/4 HANA, E-
Port, Logistics,
WMS

**Resource
conservation
measures:**
energy-efficient
LED light systems

**Reduction of
waste and carbon
emissions:**
Euro 5-compliant
truck fleet, fully-
electric cranes

**Creating
green areas**

National Green Growth Strategy:

Key Priorities Toward 2030

**ENERGY
TRANSITION**

**CIRCULAR
ECONOMY**

**DIGITAL &
INNOVATION**

**GREEN
INFRASTRUCTURE**

Long An International Port's Green Port Ambition

Long An International Port has developed a modern, multimodal, and sustainable logistics ecosystem, in support of Vietnam's Green Growth agenda and Net Zero ambitions.
