Improving life for all by integrating the world

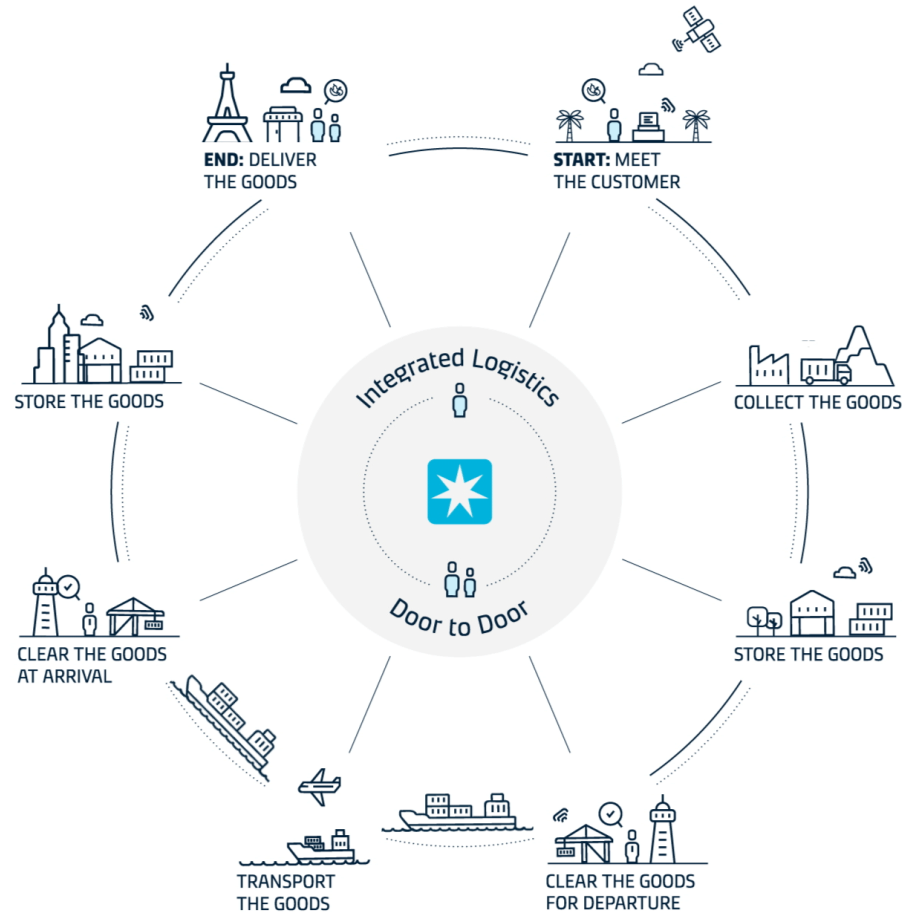

Our vision is to deliver a more connected, agile and sustainable future for global logistics.

We want you to forget about logistics and focus on growing your business to reach even the most remote locations, and also working to reduce your carbon footprint.

Optimise, protect and simplify your supply chains with our end-to-end logistics services, a growing suite of digital solutions, and a global delivery network spread across

130+ COUNTRIES

Leverage our 115+ years of experience and expertise with global logistics to transport your business to the future.

Maersk intermodal landscape in South West Europe

Carrier's Haulage - Trucking
Container drayage

Direct trucking where no alternative combined, intermodal connection is possible. Can be combined with other modes of transport.

Full geographic coverage across Europe. Standalone as well as connecting Container Yard to Store Door.

Combined with Maersk Ocean, added benefits, ease of doing business.

Carrier's Haulage - Rail
Containerized rail, own block trains

Competitive and extensive rail network that offers speed, reliability and sustainability.

Own managed block trains enable competitive transit times and scheduled reliability.

Carrier's Haulage - Barge
RORO, Barge

Barge direct or barge combined services on geographies with waterway network.

High frequency of departures. Economical and ecological attractive solution.

← OOG solutions available →

Multicarrier & OOG
Container Logistics for all carriers

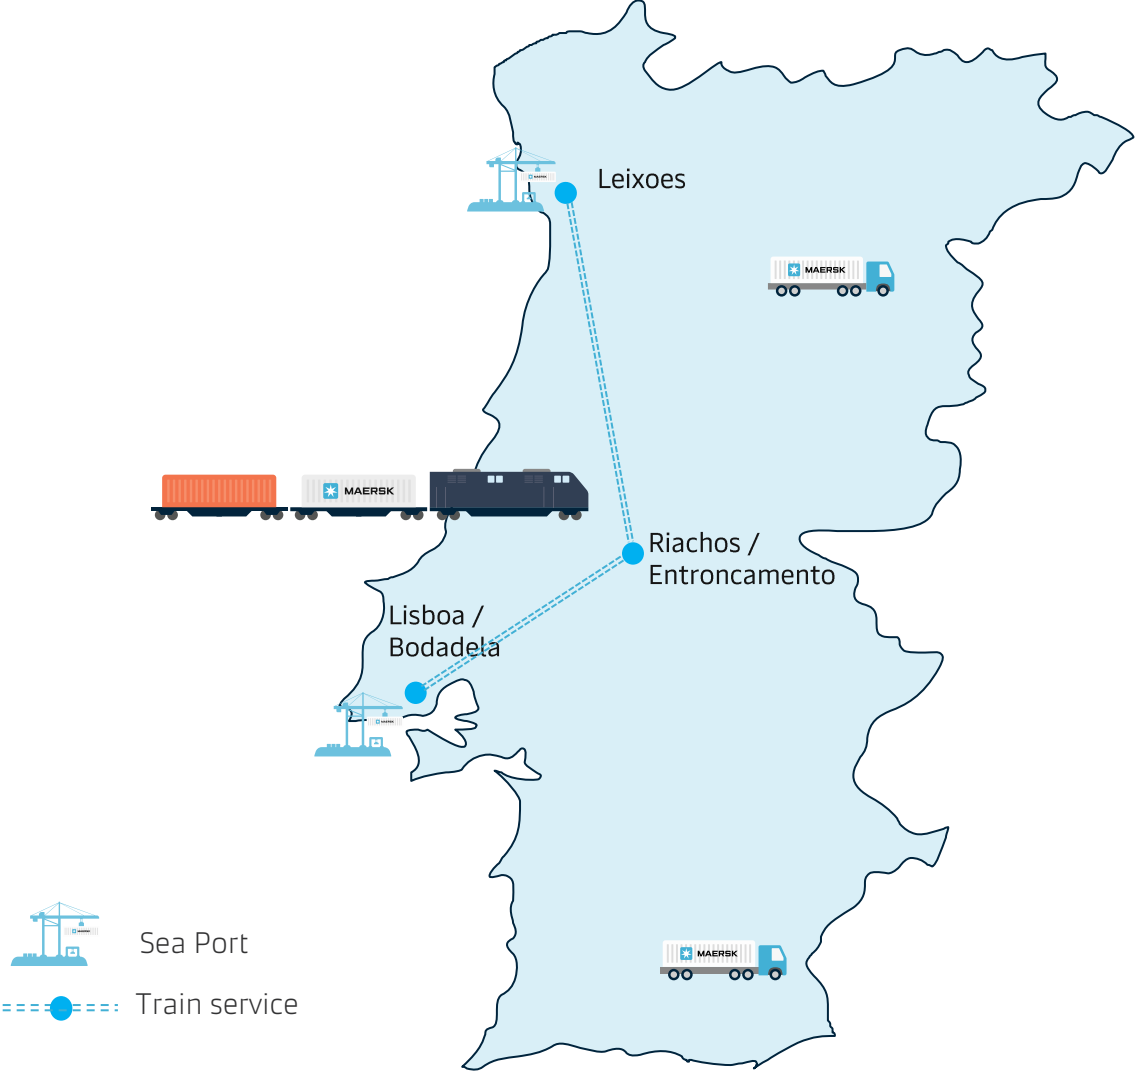

Offering intermodal solutions also for containers of other carriers or on stand-alone solutions without ocean leg. Often combined with our SCM offering.

Dedicated block train connecting Barcelona, Toulouse & Lyon

- Services:
 - 3 weekly roundtrips to Toulouse
 - 1 weekly roundtrip to Lyon
- Additional rail connections to/from Bordeaux area available, and future connections to/from Tarragona coming soon.
- Key differentiators :
 - Use of standard gauge railway line Barcelona – Perpignan: **no change of axles, no transshipment of containers** at the border
 - Use of new interoperable locomotives: same locomotive hauling the train end-to-end, no change at the border.
 - 100% electric traction end-to-end : a green transport solution.
- For maritime containers (20', 40' HC)
- For continental containers (30' dry, 20' or 30' isotanks).
Not for reefers, swap bodies, semi-trailers.
